Hodges University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to Award Associate, Bachelor’s, and Master’s Degrees.

GENERAL INFORMATION

HISTORY OF THE UNIVERSITY

Hodges University is a comprehensive institution of higher learning named after its benefactors, Earl and Thelma Hodges. Founded in January 1990 as International College, the College changed its name to honor the Hodges in May 2007 and moved to university status. Policies concerning the University are formulated by the Board of Trustees.

The University offers associate, baccalaureate, and master-level degree programs in a variety of disciplines. In addition to granting degrees, the University offers Continuing Education Programs such as instruction in English as a second or foreign language and lifelong learning classes for senior citizens. Specifically designed programs and special courses are also available to businesses and professional firms seeking instruction or personalized seminars.

The University is a non-profit, tax exempt institution, whose purpose is to provide post secondary education opportunities to students from the general Southwest Florida community. The main campus of the University is located at 2655 Northbrooke Drive, Naples, Florida 34119 (telephone 239-513-1122).

An additional campus center was opened for classroom instruction in nearby Ft. Myers in 1992. This campus, now located at 4501 Colonial Boulevard, Ft. Myers, Florida 33966 (telephone 239-482-0019), is easily accessible from I-75, the main highway artery between Naples and Ft. Myers. The University also establishes learning sites as the need arises. Currently, the University operates learning sites at Manatee Technical Institute in Bradenton, South Florida Community College in Avon Park, the University Centers of Edison State College in Lee and Charlotte counties, Pasco-Hernando Community College in New Port Richey, Brooksville and Dade City, Immokalee at Jubilation and Florida Keys Community College in Key West.

ACCREDITATION, LICENSURE, AND RECOGNITIONS

ACCREDITATIONS

Hodges University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number 404-679-4501) to award Associate, Bachelor's, and Master's degrees.

Hodges University has received specialized accreditation for its business and business-related programs through International Assembly for Collegiate Business Education (IACBE), Olathe, Kansas. The following degree programs are accredited by the IACBE: Bachelor of Science degrees in Accounting, Business Administration, and Management and the Master of Business Administration, Master of Public Administration, and Master of Science in Management.

LICENSURE

Hodges University is licensed in accordance with the Florida Statutes Title XLVIII, K-20 Education Code, Ch. 1000-1013.

RECOGNITIONS

The University is recognized by various Federal and State agencies that require official documentation for the recognition of student academic achievement. The University or the University's accreditation is recognized officially by the following agencies:

U.S. Citizenship and Immigration Services, Department of Homeland Security
Florida Board of Accountancy
Bureau of Educator Certification
Florida State Approving Agency for Veterans Affairs

BENEFACTORS

In 2007, International College was renamed Hodges University in honor of its main benefactors, Earl and Thelma Hodges. The Hodges have been long-time residents of Naples, and long-time supporters of Hodges University.

The contributions of Earl and Thelma Hodges are significant, spanning nearly 50 years of service in Southwest Florida. Their generous gifts of time, effort and funds have strengthened the business environment, the role of charitable organizations, and families.

The Hodges are perhaps best recognized as owners of the Earl G. Hodges Funeral Chapel in Naples, which provided more than 40 years of business and service to the local community. The Hodges have had a number of other successful business interests both in and out of state and have been actively involved in a countless number of local causes.

ENDOWMENTS

The Lavern Norris Gaynor President's Chair

Lavern Norris Gaynor, a member of the Hodges University Foundation Board of Directors and the initial recipient of the Hodges University Humanitarian of the Year Award, has generously established the Lavern Norris Gaynor President's Chair. Mrs. Gaynor is well known in the Naples Community for her philanthropy, as was her late husband, George Gaynor, whose name appears on the first building established at the Naples Campus. This is the first President's Chair to be endowed in the State of Florida. This endowment will provide continuing support for unique visionary opportunities established by the Office of the President.

The Kenneth Oscar Johnson School of Business and the Kenneth O. Johnson Endowed Professorship Fund

Through a generous gift from the late Kenneth O. Johnson, the School of Business at Hodges University has been named the Kenneth Oscar Johnson School of Business. Mr. Johnson was a founding member of the Hodges University Foundation Board and the American Military Veterans Educational Fund Committee, which provides scholarships to military veterans. Prior to his retirement, Mr. Johnson was a senior level executive in the Texas Oil Industry, and throughout his retirement, he continued to advise energy companies on business strategy. Mr. Johnson also provided funding for the Kenneth O. Johnson Endowed Professorship Fund. This endowment will provide perpetual funding to facilitate faculty scholarly research and professional development in a variety of areas for faculty within the School of Business.

The Frances Pew Hayes Center for Lifelong Learning

The late Frances Pew Hayes, the 2002 recipient of the Hodges University Humanitarian of the Year Award, was well known for her philanthropic support of children, the arts and education. Her legacy continues today through the Frances Pew Hayes Family Foundation, which has generously endowed the Center for Lifelong Learning, now named The Frances Pew Hayes Center for Lifelong Learning. This endowment will provide continuing support for exceptional lifelong learning programs.

PHILOSOPHY AND OBJECTIVES OF HODGES UNIVERSITY

Hodges University is a private, non-profit, coeducational institution dedicated to the development of students as fully self-actualized persons and to providing education for students of all faiths, ages and life circumstances. Hodges University seeks to foster in its students measurable objective educational outcomes as a result of meeting its mission.

These educational outcomes are:

- * Critical Thinking
- * Effective Communication
- * Initiative
- * Leadership Ability
- * Research Ability

Hodges University provides a learning environment that promotes an appreciation for:

- * Adaptability to Change
- * Social Responsibility
- * A Global Perspective
- * Excellence
- * Lifelong Learning

Hodges University bases its educational programs on the following philosophy:

That Hodges University, as an open, creative and community-conscious educational institution, must fulfill its mission in the climate of a changing world. That each student, as a unique person, deserves a program of studies and varied experiences for personal growth without regard to race, color, gender, sexual orientation, religion, creed, national origin, political opinions or affiliations, disabled veteran status, disability, or age as provided by law and in accordance with the University's respect for personal dignity.

That Hodges University can best serve its students and the community by providing professional programs of study that afford life and career enrichment.

MISSION

The Mission of Hodges University is to offer Associate, Baccalaureate and Graduate degrees as well as other programs that enhance the ability of students to achieve life or career objectives.

MISSION PRINCIPLES

To achieve its Mission, Hodges University supports the following principles:

- Hodges University is a teaching institution that emphasizes the practical application and advancement of knowledge in career programs.
- Hodges University encourages scholarly activity among its faculty.
- Hodges University is a student-centered institution of higher learning that primarily focuses on the needs of adult learners.
- Hodges University provides contemporary and experiential delivery systems, including distance learning.
- Hodges University serves as an educational resource for Southwest Florida by providing a venue for community programs and services.
- Hodges University encourages and supports and supports cultural diversity and inclusion.

LIBRARY

The Hodges University Library is a learning and teaching environment embracing the pursuit of knowledge, intellectual and ethical integrity, respect for inquiry and diverse points of view. The Library works collaboratively with faculty to ensure students achieve the University's educational outcomes.

The libraries at the Naples and Ft. Myers campuses provide a physical and virtual library support system to all students and faculty whether they are attending classes on campus, at a learning site or taking courses online.

The library's online catalog serves as a central access search tool for print and electronic resources, including e-journals, e-books, electronic government documents, DVDs and print materials. Catalog entries may include descriptive summaries, tables of contents, book reviews, topical headings and images of book covers, making it very convenient for the researcher to determine which title is appropriate.

The library subscribes to an extensive list of premier resources, both print and electronic, including over 9,000 e-journals from such publishers as Thomson-Gale, LexisNexis, EBSCO and ProQuest. In addition to general resources, the Library has program-specific online databases such as those for business, management and accounting students who have access to The Conference Board, MarketResearch.com, Standard & Poor's NetAdvantage, CCH Tax Research Network, Dun & Bradstreet and Hoover's Company Records. Available for criminal justice students are LexisNexis, Criminal Justice Periodicals and PsycArticles. Computer information programs are supported with IEEE, ACM, Safari Technical Books online and Faulkner's Advisory for IT Studies.

As a result of the emphasis on electronic delivery of information, high priority is placed on training by the Library faculty. Information literacy programs and training in new technologies are offered through scheduled classes, pathfinders, online tutorials, drop-in sessions, personal appointments or chat sessions through Ask a Librarian.

INFORMATION TECHNOLOGY DEPARTMENT

The IT Department is dedicated to the development of technology and the practical application of knowledge in career programs, while providing technology-based delivery systems conducive to learning. This includes both equipment and personnel. Software and hardware at the University are constantly being upgraded to provide current technologies for the students. Lab Managers and IT staff at each campus ensure that students receive personal assistance.

It is each student's responsibility to read, understand, and abide by the University Network and Communication Policies. These policies are part of the student registration packet and are available on the University website. These policies are strictly enforced and are subject to change without notice.

All students receive Hodges University email accounts their first semester. University faculty and staff email students exclusively through these accounts.

DISTANCE EDUCATION

Distance Education initiatives at the University are supervised by the Director of Distance Education, who monitors the integration of online delivery methodology with the academic process. Selected courses and degree programs are offered online using the Blackboard Learning System™. Students taking online courses are required to take the Blackboard tutorial before they begin their courses.

FINANCIAL ASSISTANCE PROGRAMS

The Institution is in compliance with all requirements for eligibility to award Student Financial Aid under Title IV, Federal Higher Education Act (Financial Assistance). Currently, graduate students may be eligible for Federal Stafford Student Loans. If the student is eligible, an appropriate award package will be developed. Students selected

for verification will be contacted by telephone, letter, or email within two weeks of submission of the student's financial aid paperwork. The Financial Aid Office will not disburse any financial aid funds to a student's account until the required documentation is received. The required documentation has to be received by the Financial Aid Office within 30 days of the student being notified. Failure to comply will make the student ineligible for financial aid until the paperwork is received.

Students are cautioned that all awards are made based on the availability of program funds to the University and accuracy of the information provided to determine financial aid eligibility. Reductions in funding programs, over which the University has no control, or changes in eligibility status due to the verification process, may amend initial awards. Students must maintain good standing and satisfactory progress toward completion of their respective program. (See "Standards of Academic Progress" listed herein.)

No students may receive financial aid if they owe a refund on any grant, are in default on any loan, or have borrowed in excess of established loan limits under Title IV financial aid programs at any institution or are enrolled in either an elementary or secondary school.

FEDERAL STAFFORD STUDENT LOAN PROGRAM

The Federal Stafford Student Loan Program, available to eligible students, is a low-interest loan made by a lender such as a bank, credit union, or savings and loan association to help pay for the cost of education. Maximum loan limits, set by Federal law, are applied based upon the student's yearly progress at the University. Repayment of the Stafford Loan generally begins six months after the student has graduated, left school, or dropped below a half-time class schedule.

There are two types of Stafford Loans:

- Subsidized - Federal government pays the interest to the lender while the student is in school.
- Unsubsidized - Interest accrues from the date of origination and is the responsibility of the borrower.

Eligible students who are enrolled at least on a half-time basis may borrow funds under this program.

THE HODGES UNIVERSITY SCHOLARSHIP PROGRAM

Hodges University offers private and institutional scholarships to assist and reward students financially. The goal of the Hodges University scholarship program is to supplement the resources of students to the extent possible to enable them to begin or to continue University studies. **All Hodges University students at the current Graduate Bulletin tuition rate may apply for a scholarship.** Donors may specify additional stipulations regarding eligibility.

For additional information on scholarships, students should contact the Financial Aid Office for application information. The Dean of Students serves as the Chair of the Hodges University Scholarship Committee; students may also contact the Dean of Students for personal advice concerning the scholarship process.

PRIVATE GRADUATE SCHOLARSHIPS

Scholarships are provided to Hodges University students according to guidelines established, in most cases, by the sponsors. Applications must follow the guidelines prescribed by the sponsor.

The Florida Institute of Certified Public Accountants (FICPA) Scholarship

The Florida Institute of Certified Public Accountants (FICPA) Scholarship assists students who are enrolled in the MBA Program or the 5-year accounting track, and who are working toward qualifying to sit for the Florida C.P.A. exam.

The Florida Bankers Educational Foundation

The Florida Bankers Educational Foundation offers a \$2,500 (\$5,000 maximum total) scholarship loan/grant for graduate students who work for, or plan to work for, a Florida bank.

Institutional Scholarships

Institutional scholarships are provided by the University to encourage continuing students to undertake graduate studies.

The Graduate Courses Scholarship

In order to encourage the pursuit and completion of a graduate program, Hodges University provides a special Graduate Courses Scholarship for students who have been awarded a bachelor's degree from Hodges University. All graduates of Hodges University Baccalaureate programs who are paying the full tuition rate will be granted a \$100 per credit hour scholarship on all graduate courses taken at Hodges University. An application for this scholarship is not required. Compliance is noted by the Business Office during registration.

STUDENT ACCOUNTS

All student accounts are due and payable at the time such charges are incurred. University regulations prohibit registration, graduation, granting credit, taking of final examinations, or release of grades or transcripts for students whose accounts are delinquent.

REFUND POLICY

The operating budget of the University provides for the engagement of faculty, expenses, and other annual provisions for management and physical facilities. The University anticipates its budget upon the collection of tuition charges for the full academic term from all accepted students. The withdrawal of a student does not decrease the expenses of the University to any substantial extent. In many cases, classes may have been closed to other students due to capacity. The refund policy has been established so that the student who registers for a class and then withdraws will share in the incurred costs. Refunds are made in a fair and equitable manner in accordance with the policies which follow.

STUDENT RESPONSIBILITY

It is the responsibility of the student to notify the Registrar's Office in writing if the student wishes to cancel or withdraw. Examples of the application of the following refund policy are available upon request in the Business Office. If the student wishes to appeal the calculation of a refund, the appeal is to be filed in writing with the Executive Vice President of Finance and Student Services.

CANCELLATION POLICY

Within 3 days of the date the student executes an enrollment agreement, he/she may cancel his/her enrollment and receive a full refund of any tuition or fees paid, minus the application fee, which is non-refundable.

FAILURE TO ENTER

If the student does not enter classes, the full amount of any prepaid tuition is refundable. (Application fees are non-refundable). A student is considered to have entered a class if he/she attends a classroom session or participates in an online assignment.

DROP/ADD

The first week of each term is the drop/add period. If the student wants to add or drop a class, the desired change must be communicated to the Registrar's Office by the end of the first week of the term. At the end of the first week

of the term, the student's status will be permanent for the whole term, both in terms of charges for classes and in amount of financial aid eligibility. There are no refunds of charges for individual classes dropped after the first week.

WITHDRAWAL

The student must report to the Registrar's Office to withdraw from the University. The date the student notifies the Registrar's Office of withdrawal is considered the date of withdrawal. Tuition and fees will be charged on a pro-rata basis (rounded up to the nearest 10%) through 50% of the trimester, plus an administrative fee of \$100. After 50% of the trimester, 100% of tuition and fees will be charged.

PROCESSING OF REFUNDS

Students who have received Title IV Federal Student Financial Assistance will also be subject to the Federal Return of Funds Policy. Students who withdraw during a term may owe the University after funds have been returned to Federal programs.

Refunds of tuition and/or other refundable charges due students will be made within forty-five (45) calendar days of the student's official date of withdrawal. Refunds for the student who fails to notify the University of withdrawal will be processed within the earlier of forty-five (45) calendar days from the day the University determines that the student has withdrawn or forty-five (45) calendar days from the end of the trimester. Refunds to students receiving Title IV Student Financial Assistance will be made in accordance with applicable regulations, and will be allocated in the following order:

- a. To eliminate outstanding balances on unsubsidized Federal Stafford loans received by the student for the period.
- b. To eliminate outstanding balances on subsidized Federal Stafford loans received by the student for the period.
- c. To eliminate outstanding balances on Federal PLUS loans received on behalf of the student for the period.
- d. To eliminate any amount of other assistance awarded to the student under programs authorized by Title IV of the Higher Education Act for the period.
- e. To repay required refunds of other Federal, State or private institutional student financial assistance received by the student.
- f. To the student.

RESERVATIONS AS TO PROGRAMS AND CHARGES

The University reserves the right to modify its tuition and fees; to add to or withdraw members from its faculty and staff; to rearrange its programs from time to time as teaching policies make it desirable; and to withdraw subjects, courses, and programs if registration falls below the required number. Any specific course requirements in any area may only be changed or waived by the Executive Vice President of Academic Affairs upon written request from the student for reasonable cause. Course substitutions may be made by the Executive Vice President of Academic Affairs or by the Graduate Program Committee. The total hours specified in each area of the degree or the program total are the minimum requirements for completion.

FAMILIARITY WITH UNIVERSITY REGULATIONS

On or before entrance, each student is given the Graduate Bulletin and various brochures and other publications which set forth the policies and regulations under which the University operates. It is the responsibility of the student to become familiar with these policies and regulations and to comply accordingly. Ignorance of or lack of familiarity with this information does not serve as an excuse for noncompliance or infractions.

All applicants for residency classes/programs must have legal status in the United States, either by birth, citizenship, or appropriate INS documentation. All applicants for online programs must have legal status in the country in which they reside.

UNIVERSITY LIABILITY

Physical injury and other medical problems, as well as loss of or damage to personal property resulting from fire, theft or other causes, cannot be the responsibility of the University. The University reserves the right to retain samples of student work and to use photographs or videotapes of students and their work.

GUESTS AND CHILDREN ON CAMPUS

It is the policy of Hodges University that students may not bring guests, parents, spouses or children to class. It causes a problem of liability and it is found to be disruptive to the instructors and fellow students. Children may not be left unattended in the facilities at any time, nor should students ask fellow students, faculty or staff to watch their children on campus in order to attend class. Students will be asked to make other child care arrangements, and leave the campus. Guests, parents, spouses and children are welcome to attend specific events by invitation of the institution.

PETS

Pets may not be brought into ANY campus building at any time, with the exception of seeing eye dogs. The University reserves the right to request Animal Control to remove abandoned or unsupervised pets.

NON-DISCRIMINATION STATEMENT

Hodges University does not discriminate on the basis of race, color, national origin, sex, disability or age in the provision of educational opportunities or employment opportunities and benefits. Hodges University does not discriminate on the basis of sex or disability in the education programs and activities that it operates, pursuant to the requirements of Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990, respectively. This policy extends to both employment by and admission to Hodges University. Inquiries concerning Title IX, Section 504, or the Americans with Disabilities Act should be directed to the ADA Coordinator, Dr. Micki Erickson, Hodges University, 2655 Northbrooke Drive, Naples, FL 34119, 239-513-1122. Charges of violations of this policy should also be directed to the ADA Coordinator, Dr. Micki Erickson, Hodges University, 2655 Northbrooke Drive, Naples, FL 34119, 239-513-1122.

SEXUALITY AND SEXUAL HARASSMENT AND/OR ASSAULT

The following four sections relate to the Hodges University policy and definitions of sexual misconduct and sexual harassment.

SEXUALITY, PRIVACY AND PERSONAL INTEGRITY

Each member of the University community is entitled to his/her privacy and personal integrity regarding his or her sexuality, and the University will demand respect by all members of its community for all individuals within its constituencies. Accordingly, the University has adopted a firm policy against sexual harassment of and by any member of the University community. Any incident of sexual harassment will be deemed a serious breach of security. Further, it is the strong policy of Hodges University to prevent sexual offenses, and to vigorously assist any member of the University community who has been victimized by a sexual assault by assuring appropriate counseling and crisis management.

If you are a victim of a sexual assault on campus, or you feel you may have been the victim of sexual assault or sexual harassment, contact a member of the University administration. There are resources available to help you.

SEXUAL MISCONDUCT POLICY

Hodges University, in compliance with the spirit of various federal and state laws (e.g., Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and other similar state and federal statutes or regulations), adopts the policy and fosters an environment where no individual may threaten the health, safety and welfare of a member of the University community; or any person on University property; or at a University sponsored or University supervised activity, through the commission of a sexual assault, engaging in sexual harassment, discrimination, battery, and/or misconduct, including acquaintance rape.

DEFINITION: Hodges University acknowledges acquaintance rape in its definition of sexual assault. Acquaintance rape is defined as forced, manipulated or coerced sexual intercourse by a friend or acquaintance. It is an act of violence, aggression and power, in which the victim, under protest or without consent, is forced to experience a sexual act through verbal coercion, threats, physical restraint, and/or physical violence.

Consideration and rights to be afforded to all campus community members regarding the type of sexual assault:

- a. the right to have all sexual assaults against them treated with seriousness; and the right, as victims, to be treated with dignity;
- b. the right to have sexual assaults committed against them investigated and adjudicated by the duly constituted criminal and civil authorities of the governmental entity in which the crimes occurred; and the right to the full and prompt cooperation and assistance of campus personnel in notifying the proper authorities;
- c. the right to be free from pressure that would suggest that the victim: (i) not report crimes committed against him/her to civil and criminal authorities or to the campus authorities; or (ii) report crimes as lesser offenses than the victim perceives them to be;
- d. the right to be free from suggestions that sexual assault victims not report, or underreport, crimes because (i) victims are somehow responsible for the commission of crimes against them; (ii) victims were contributorily negligent or assumed the risk of being assaulted; or (iii) by reporting crimes, they would incur unwanted personal publicity;
- e. the right to the full and prompt, reasonable cooperation from campus personnel in responding to the incident;
- f. the right to have access to counseling services established by the University or other victim-service entities referred by the University;
- g. after campus sexual assaults have been reported, the victims of such crimes shall have the right to require that the campus personnel take the necessary steps or actions reasonably feasible to prevent unwanted contact with, or proximity to, alleged assailants;
- h. the right to be informed of disciplinary proceedings, as well as the outcome of such proceedings;
- i. the same right to assistance, or ability to have others present, that is afforded to the accused during any campus disciplinary proceedings.

Disciplinary action: In addition to any criminal or civil actions that may be pending or in process, the University reserves the right to pursue separate disciplinary action against any individual who violates any portion of this policy.

Education and information: Hodges University provides educational and informational programs and materials regarding awareness of rape, acquaintance rape and other sex offenses. This information is provided through scheduled and on-demand programs, by the Offices of Student Development and Counseling.

Hodges University students are encouraged to report to the police (9-1-1) and a University administrator all occurrences of sexual assault, either violent assault or acquaintance (date) rape.

The University Counselor, Vice President of Student Development/Dean of Students, and Assistant Dean of Students are trained and willing to assist students who are victims of sexual assault.

If the victim then reports the crime to an administrator, the following procedure will prevail.

Third Party Reports: When there is a report of sexual assault, the person receiving the report whether a student, faculty member, or staff member is encouraged, in turn, to report the incident to a University administrator. If the person reporting the assault is a third party (not the victim), the administrator will do the following:

- a. advise the reporter to counsel the victim to seek medical assistance;
- b. advise the reporter to encourage the victim to talk to the University Counselor, who may refer a counselor in an appropriate local Rape Center, or the Vice President of Student Development/Dean of Students and/or Assistant Dean of Students, or some other University administrator;
- c. protect the confidentiality of the victim (if the name is known).

Victim Reports: If a student who is a victim of sexual assault reports the matter to a University administrator or any other employee of the University, the administrator and/or employee will encourage the victim to seek immediate medical attention and assist the victim in appropriate methods and avenues to receive medical care. In reporting a sexual assault, the victim controls the process. The administrator and/or employee will encourage the victim to report the matter to the rape victim advocate in the state attorney's office and to local police. The victim will be assured of university support including reasonable confidentiality, full cooperation with any police investigation, and counseling by the University Counselor, or appropriate assisted referral.

HARASSMENT STATEMENT

Harassment is defined as any conduct (words or act), whether intentional or unintentional, or a product of the disregard for the safety, rights, or welfare of others, which causes physical, verbal, or emotional harm; or conduct, which intimidates, degrades, demeans, threatens, hazes, or otherwise interferes with another person's rights to comfort and right to be free of a hostile environment. This includes, but is not limited to, loud or aggressive behavior; behavior that disrupts the orderly functioning of Hodges University; disturbs the peace and/or comfort of person(s) on the University campus; or creates an intimidating, hostile, or offensive environment. It also includes any conduct (words or acts) in which the University can determine a threat exists to the educational process or to the health or safety of a member of the Hodges University community.

SEXUAL HARASSMENT POLICY

It is the intent of Hodges University to protect all employees and students from sexual harassment. Sexual harassment is a violation of the Title VII of the Civil Rights Act of 1964. Sexual harassment undermines the integrity of the employment and academic environment, debilitates morale, and interferes with the effectiveness of employees and students. In accordance with the Equal Employment Opportunity Commission's promulgated guidelines, unwelcome sexual advances, unwanted requests for favors of a sexual nature, and any other unwanted verbal or physical conduct of a sexual nature are considered sexual harassment if:

- explicit or implicit submission to sexual overtones is made a term or condition of employment or academic program status;
- employment or academic program status decisions are made on the basis of whether submission to or rejection of sexual overtones occurred;
- a sexually intimidating, hostile, or offensive atmosphere unreasonably interferes with an individual's work or academic program status performance.

At Hodges University, sexual harassment of or by employees or students includes:

1. unwelcome or unwanted sexual advances. This includes unwelcome physical contact or sexual advances considered unacceptable by another individual.

2. requests or demands for sexual favors. This includes subtle or blatant pressures or requests for any type of sexual favor, accompanied by an implied or stated promise of preferential treatment or negative consequence concerning one's employment or academic program status.
3. verbal abuse that is sex-oriented or considered unacceptable by another individual, as well as sexually derogatory comments. This includes commenting about an individual's body or appearance when such comments go beyond mere courtesy, telling jokes that are clearly unwanted and considered offensive by others, or other tasteless sexually-oriented comments, innuendoes, or actions that offend others.
4. engaging in any type of sexually oriented conduct that would unreasonably interfere with another's work or academic program status performance. This includes extending unwanted sexual attention to someone that reduces personal productivity or time available to work at assigned tasks.
5. creating a work or academic program status environment that is intimidating, hostile, or offensive because of unwelcome or unwanted sexually-oriented conversations, suggestions, requests, demands, physical contact, or attentions.

Hodges University will not tolerate sexual harassment. Sexual harassment is an insidious practice. It demeans individuals being treated in such a manner, and creates unacceptable stress for the entire organization. Persons harassing others will be dealt with swiftly and vigorously.

Normal, non-coercive interaction that is acceptable to both parties is not considered to be sexual harassment.

All allegations of sexual harassment of or by an employee, client, or vendor will be promptly and thoroughly investigated by the Office of Student Development and should be reported promptly to the Vice President of Student Development/Dean of Students or campus directors.

At Hodges University, sexual harassment by employees of students is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. submission to such conduct is made to appear to be a term or condition of enrollment, attendance, or participation in a class;
2. submission to or rejection of such conduct affects academic decisions;
3. such conduct has the purpose or effect of unreasonably interfering with a student's academic performance, or creating an intimidating, hostile, or offensive academic environment;
4. unwelcome physical contact, including but not limited to patting, pinching, or touching;
5. offensive or demanding sexual remarks, jokes, or gestures.

Students aggrieved by a violation of this policy may file a grievance under the Student Grievance Policy and should report the conduct to the Vice President of Student Development/Dean of Students or other administrator. All reports of sexual harassment will be thoroughly investigated by the Vice President of Student Development/Dean of Students.

Any individual who violates any portion of this policy will be subject to disciplinary action, up to and including discharge.

At Hodges University, romantic and sexual relationships between a faculty member and a student are subject to the prohibition against sexual harassment.

Romantic or sexual relationships between a faculty member and a student then enrolled in the faculty member's class (including supervised student activities for which academic credit is given) may appear to be coercive, and are prohibited. Even when no coercion is present, such relationships create an appearance of impropriety and favoritism, which can impair the academic experience of all students in that class. It is, therefore, improper conduct and prohibited for a faculty member to engage in a romantic or sexual relationship with a student then enrolled in the faculty member's class.

STALKING

Any individual who willfully, knowingly, maliciously, or repeatedly follows; harasses; attempts to contact or communicate (written, verbal or electronic); and makes a credible threat placing the individual in reasonable fear of death or bodily harm may be in violation of Hodges University's stalking policy. Such conduct is prohibited. Stalking causes substantial emotional distress in individuals and serves no legitimate purpose. Course of conduct means a pattern of conduct composed of a series of acts over a period of time, however short, evidencing a continuity of purpose.

ABUSE/PHYSICAL ASSAULT

Hodges University has expectations of the student body to resolve differences in a mature and respectful manner. Physical abuse, verbal abuse, threats, intimidations, coercion, and/or other conduct that threatens or endangers the health, safety, and/or welfare of any other member of the University community on or off campus is prohibited.

STUDENT RECORDS

All educational records of students enrolled at the University are maintained in accordance with the provisions of the Family Educational Rights and Privacy Act of 1974, Public Law 93-380, as amended. Students may inspect their educational records at any time; however, signed official transcripts from other schools become the property of the University and are not released to the student or a third party. A student desiring a copy of his/her former school records must contact the former school and request a student copy.

Student consent is required for the release of records covered by the Act to outside parties (i.e., prospective employers), except for those agencies entitled to access under the provisions of the Act (i.e., University officials, federal educational and auditing officials, and requests related to the application for, or receipt of, financial assistance). Release of directory information does not require student consent and includes the name, address, email address, and telephone number of the student, major field of study, dates of attendance, degrees and awards received, and most recent previous educational agency or institution attended. Particular questions concerning students' rights under the Act should be directed to the Registrar's Office.

INTERNATIONAL STUDENTS

When international students apply for admission in a program approved by U.S. Citizenship and Immigration Services (USCIS), official transcripts of completed secondary and applicable post secondary credits are required along with an evaluation by a professional agency and/or translation if necessary. The expense for this service is the responsibility of the student. These transcripts must include specific dates of school attendance, courses taken during each year of attendance, credit hours and grades received from each course. All international students enrolling in any program must provide evidence of a successful command of English as determined by the following: a minimum score of 61 on the TOEFL iBT or a passing score on any assessment examinations used by Hodges University. A Form I-20 (Certificate of Eligibility for Non-immigrant (F-1) Student Status for Academic and Language Students), issued in SEVIS, will be sent to the applicant upon acceptance, receipt of a notarized Affidavit of Support, and pre-payment of full-time fees and tuition for at least one academic term. The international student should first contact the University for approved programs of training since certain listed programs may not be available for foreign applicants. A non-refundable application fee of \$50 is required for international applicants. With the above exceptions, the conditions for admission of international students are identical to those for United States citizens.

TRANSIENT STUDENTS

Students in good academic standing and enrolled in graduate programs at other post secondary institutions may enroll at Hodges University for specific course work. The regulations of the primary college or university will apply and verification of credit acceptance must be obtained prior to enrollment. Transient students must provide a

statement of good standing from their primary institution along with a letter granting permission to enroll in certain courses which must be approved by the appropriate Graduate Program Director.

INSURANCE

Hodges University does not offer insurance to students. A recommendation of a reliable insurance agency will be offered to interested students; however, Hodges University takes no responsibility for ensuring any health insurance acceptance. Students are responsible for making contact with an agency, filling out individual claims, and for all medical bills they may incur.

ENDORSEMENT POLICY

It is the policy of Hodges University not to provide endorsements or sponsorships for individual students and/or their causes.

CLOSING THE UNIVERSITY

The President of Hodges University (or, in the absence of the President, the Campus Directors who are the Executive Vice Presidents) will make the determination as to when inclement weather, severe weather warnings, or the resulting damage to the buildings warrant the cancellation of classes. When classes are cancelled, the radio stations and television public announcement services will be informed of the cancellation. The University Administration will attempt to place announcements with the radio stations most popular with the student body (WINK 96.9FM; CAT 107.1FM; Mix 104.7FM) or Comcast Cable Channel 11 or 12 government access/community service announcements.

HURRICANE CLOSURE POLICY

Hodges University only closes when placed under a Hurricane Warning by the National Weather Service. Until the area is placed under a Hurricane WARNING, there is no action taken by the University to cancel classes. If the area is placed under a Hurricane WATCH, the situation will be monitored closely to determine if a Warning will be issued. Classes remain open as scheduled in the meantime. The University hurricane preparedness policy is in no way tied to any other organization such as the public school system or any other institution. Therefore, it is possible for the University to be open when the public schools are closed, or vice versa. Additionally, a separate decision is made for the Naples and Fort Myers campuses or the learning sites, although it is unlikely for one campus to be closed while the other is open. If the campuses are closed due to a Hurricane Warning, students should expect that other auxiliary activities, such as socials, libraries, labs, etc., are also closed.

CLASS AUDIT REFRESHER EDUCATION (CARE)

CARE - Class Audit Refresher Education - is a program designed to upgrade students who have successfully completed courses taken at Hodges University or are graduates of the University. CARE allows a former student to take refresher courses in subjects studied at Hodges University with no tuition charge. Book charges and fees remain in place. The courses will allow students to sharpen or enhance skills and to remain current in new technologies in a changing world. To qualify, a student must have successfully completed the course he or she wishes to audit. As technology and new theories are constantly changing, this is a benefit to both students and to their current employers. There is no time limit nor limit to the number of courses that a student may take. Students interested in taking refresher classes should contact the Registrar's Office.

ACADEMIC POLICIES AND INFORMATION

THE OFFICE OF ACADEMIC AFFAIRS

The Office of Academic Affairs is responsible for the general oversight of all academic programs, including registration activities. The Executive Vice President of Academic Affairs oversees the academic programs and faculty, and the Vice President of Student Records Management oversees class schedules and registration policies and procedures.

GRADUATE GRADING POLICY

Academic achievement is based on the following grading system:

<u>Grade Evaluation</u>		<u>Grade Points per Credit Hour</u>
A	Superior Performance	4
B	Satisfactory Performance	3
C	Below Average Performance	2
D	Unacceptable Performance	1
F	Failure	0
WF	Withdrawal after 1st six weeks	0
WP	Withdrawal within 1st six weeks	Not Calculated
P	Pass	Not Calculated

STANDARDS OF ACADEMIC PROGRESS

1. Maximum Program Length

Students must complete their graduate program of study within five years of the date of first enrollment.

2. Minimum Academic Achievement

Graduate students must maintain an overall GPA of 3.0. No grades below a “C” will count toward graduation requirements, but all grades will be computed in the overall grade point average. Failure to maintain a GPA of 3.0 will result in the student being placed on Academic Probation.

3. Probation

All students placed on Academic Probation will be counseled by the Office of Academic Affairs. A student placed on Academic Probation will have the subsequent term to achieve a 3.0 cumulative GPA. If the student does not achieve a 3.0 GPA by the end of the subsequent term, the student will be suspended.

4. Suspension

A student placed on Academic Suspension may not return for further study for at least one term, during which time a written request to reenter must be submitted to the Graduate Program Committee for their recommendation to the Executive Vice President of Academic Affairs. Only upon written confirmation of approval to reenter from the Executive Vice President of Academic Affairs may the student return to classes. Only those students whose GPA could be improved to 3.0 will be considered for reentry. The student’s status, upon reentry, will be Final Academic Probation. If the student does not achieve a 3.0 GPA by the end of the Final Academic Probation term, the student may be dismissed.

5. Dismissal

Dismissal is a final action and a student who has been dismissed is not permitted to reenter the University.

ACADEMIC INTEGRITY

Essential to the process of education, academic honesty is required of all students. Cheating on examinations or plagiarizing are serious offenses, contrary to policy, and could result in cause for dismissal.

ACADEMIC GOOD STANDING

A graduate student is considered to be in good academic standing if he/she maintains a minimum institutional grade point average of at least a 3.0 and completes his/her program of study within five years of the date of first enrollment.

INSTITUTIONAL GOOD STANDING

Students are expected to possess a character that adheres to common acceptable standards of good conduct. Examples of situations that have an impact on good conduct include but are not limited to:

- * Not delinquent in tuition and fees due to the University.
- * Not in default in any federal loan program.
- * Never been subjected to any disciplinary action by the University.
- * Never been convicted of a felony.
- * Not listed on any official source as a sexual offender and/or predator.

ATTENDANCE REQUIREMENTS

Students are required to attend each class session unless conditions over which they have no control prevent their being present. Excessive absences, excused or unexcused, may cause the student to be withdrawn from the class. The University is in session throughout the year except for holidays and vacations as listed on the Academic Calendar. Summer class offerings are available for students who choose to attend and accelerate their program.

If a student does not attend the first two weeks of a class, he/she will be automatically dropped from that class by the Registrar's Office.

ILLNESS POLICY

Students who are absent from classes or examinations because of illness should contact their professors on a timely basis to discuss their individual situations. The student should contact the Office of the Executive Vice President of Academic Affairs for procedural information if a class needs to be dropped because of medical reasons, or if a student needs to withdraw from all courses because of illness.

CONDOLENCES POLICY

Hodges University will respond in an appropriate manner upon the death of a student, faculty, or staff member. Hodges University will not be able to respond to losses of extended family members of the student body. Students may post information to seek personal contributions for such losses upon the approval of the Vice President of Student Development/Dean of Students.

TRANSFER CREDITS

Acceptance of graduate transfer credits is contingent upon applicability to the program and may only be approved by the Graduate Program Committee. No more than 9 semester hours of credit may be accepted subject to the following restrictions:

1. Transfer credits must be completed within the previous five (5) years at an accredited institution with a grade of “B” (3.0) or higher. “Pass or Satisfactory” grades will not be accepted for transfer.
2. Graduate credit based upon internships, externships, portfolio, or other experiential learning bases will not be considered for transfer.
3. Graduate credits earned after entry into the program will not be considered for transfer.
4. Courses accepted for transfer must be relevant to the program and equivalent to specified program courses, as judged by the Graduate Program Committee.

Transfer credits will not be considered for courses that are offered at the University in an accelerated wheel format.

SEMESTER HOUR OF CREDIT

A semester hour of credit is equivalent to approximately 15 lecture class hours of instruction with appropriate out-of-class study. Laboratory hours count a minimum of 30 class hours as equal to one semester hour of credit and internships count 45 class hours to equal one semester hour credit. A class hour of instruction is a 50 minute period.

ACADEMIC LOAD

A graduate student taking nine or more credit hours in an appropriate program is defined as a full-time student. A normal course load for full-time graduate students is three courses (9 credits). Students wishing to take additional courses must obtain permission from their Graduate Program Director.

ACADEMIC PROGRAM PLANNING

The student and Program Director/faculty advisor will prepare a detailed *Approved Program of Study* to guide each student to successful program completion in a timely manner. The *Approved Program of Study* will become part of the student’s official academic records. Changes to the *Approved Program of Study* require the approval of the Program Director/faculty advisor.

Registration occurs prior to the beginning of each term. New students receive academic advisement and register with the Registrar’s Office. Continuing students register with their Program Director or Academic Advisor in the Registrar’s Office approximately one month in advance of the last day of the semester. It is the responsibility of the student to follow the correct course of study as listed herein. Students who do not register during posted registration dates may be subject to a late registration fee.

REPETITIONS AND WITHDRAWALS

Repeat grades may be substituted for previous grades of C, D, or F in the calculation of a student’s cumulative grade point average for the equivalent of 6 semester hours.

All courses receiving grades (including repeated courses) will be counted as courses (credits) attempted for calculating percentage completion rates and cumulative grade point average for the two times permissible. Under no circumstances may a student extend as a regular active student beyond one and one half time (150%) the normal program length of a program in order to complete that program.

Withdrawals may receive either a “WP” or “WF” grade. A “WP” grade may be issued for withdrawals within the first six weeks of a trimester and does not carry a grade point value. “WP” grades may also be issued for documented extenuating or mitigating circumstances that have been approved by the Academic Committee or the Executive Vice President of Academic Affairs. A “WF” grade is given to a student who withdraws from a course after the sixth week of the trimester and carries a grade point value of “0”.

The credit values of “WP” and “WF” grades will be counted as part of the credits attempted at each of the evaluation points in the Successful Course Completion scale.

MITIGATING CIRCUMSTANCES

The Academic Committee or the Executive Vice President of Academic Affairs may waive interim satisfactory progress standards for occurrences beyond the control of the student. Documentation of the extenuating mitigating event and the demonstration by the student of the adverse effect on the student's academic progress must be provided.

TRANSCRIPT INFORMATION

Upon written application by the student to the Registrar's Office, the University will furnish transcripts of each student's scholastic record. These transcripts will state, "issued to student." No transcript may be issued for a student who is in arrears. Official transcripts requested by students to be sent to other educational institutions are not given to students or mailed to private addresses, but are mailed directly to the institutions. During peak periods, particularly at the end of each trimester, there may be a two-week delay. Transcripts are processed in the order in which requests are received.

INSTRUCTIONAL METHODOLOGY

The graduate faculty utilizes a variety of instructional methods, including traditional classroom lecture sessions, readings, classroom discussion, online discussions, student facilitation, interactive learning, computerized learning resources, case studies, research projects, team activities, simulations, and cohort online study activities. The objective of employing varied instructional methods is to enrich the student with multiple approaches to understanding and solving problems that are encountered in the workplace.

FACULTY-ASSISTED COURSES

Courses listed in the Graduate Bulletin may be offered in a tutorial setting when approved by the Program Director. Weekly sessions are held with an assigned faculty member with a minimum of a midterm and final evaluation required.

WRITING SAMPLE

The Graduate Admissions process requires an applicant to complete a writing sample. Students who do not achieve a satisfactory mark on the writing sample are required to enroll in ENG5210, Professional Writing, which may increase the number of credits the applicant will be required to complete for his/her degree requirements.

MULTIPLE DEGREES

Additional master's degrees may be awarded to a student who has completed all of the requirements for all degrees. Students must complete all of the requirements for the first degree, and a minimum of 12 additional credits for each additional degree thereafter.

GRADUATION

Commencement exercises are held once a year. All students completing their degree requirements are included in the graduating class of that year. All students receiving degrees are expected to participate in the commencement exercises. All graduates must fulfill all financial obligations, including tuition charges, fees, and other expenses, before the degree is granted. All students must pay the graduation fee in order to receive their transcript or degree. It is each student's responsibility to notify the Registrar's Office by filling out an "Intent to Graduate" form at the beginning of his/her last trimester.

Graduates of all programs must successfully complete all degree components with a minimum grade of “C” in all course work and achieve an overall GPA of 3.0. Graduates must also complete a Professional Portfolio which will be graded on a pass/fail basis.

GRADUATION WITH HONORS

Students enrolled in degree programs who have earned the required credits for graduation with the following grade point averages are entitled to the appropriate honors: 3.50-3.75, cum laude; 3.76-3.89, magna cum laude; 3.90 and above, summa cum laude.

ACADEMIC PROGRAMS

Admissions requirements for each graduate program are included in the program description. The University does not accept applicants with a felony record or registered sexual predators or offenders into its programs of study.

MASTER OF BUSINESS ADMINISTRATION (MBA)

MBA PROGRAM DESCRIPTION

The Master of Business Administration (MBA) is a general business professional degree program, intended to prepare graduates for managerial roles in business and non-profit enterprises. Graduates of the program will be equipped with the knowledge and skills required to lead and contribute to organizational success at the executive level. Mastery of the critical competencies such as planning, decision making, environmental scanning, financial analysis, marketing, global business, and business research are included in the MBA program of study. MBA graduates are required to successfully complete prescribed course work in the three degree component areas of Common Body of Knowledge, Business Core, and Electives/Concentrations, and satisfactorily complete the MBA Comprehensive Examination, and Professional Portfolio. The MBA Program can be completed in an online format, an in-class format, or a combination of both.

Students entering the MBA Program are automatically entered into the business core. However, students desiring to specialize in information systems management may select the Information Technology (IT) MBA Track. This track provides the rigor of a traditional MBA program and allows students to concentrate on the management of information systems.

MBA ADMISSION REQUIREMENTS

The MBA Program is comprised of advanced academic course work and, therefore, admission is only granted to applicants who display a high probability of success in graduate level study. Eligibility for admission is determined by the Graduate Program Committee, based on prior academic performance, MBA Admissions Test results, and/or other relevant demonstrations of preparation for graduate study. The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

Admission to the MBA Program requires the following:

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level course work; and
5. Acceptable results on the MBA Admissions Test; and
6. Two letters of recommendation.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience or other extenuating factors may apply for Conditional Admission if their GPA (last 60 college credits) is less than 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made either to allow the student to continue or terminate the student's enrollment.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admission requirements. The University is not responsible for any

expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admission requirements. The student bears the total risk for Conditional Admission and there will be no appeal of the Committee's findings.

MBA PROGRAM OF STUDY

Common Body of Knowledge Component (CBK) - 18 Credits

The Common Body of Knowledge (CBK) courses are designed to provide a basic foundation of academic preparation for advanced course work. The CBK courses assume that the student has little or no prior academic preparation in each area of study. The CBK courses are considered minimum preparation in introductory business before advanced study may proceed. Completion of CBK courses demonstrates the student's proficiency in six areas of business knowledge. Students demonstrating specific competencies in undergraduate course work or demonstrating the ability to successfully complete an examination covering the fundamentals in the required subject area, may be granted waivers for courses in the CBK component. Equivalency waiver requirements are shown under *CBK Waiver Policy*.

MBA Core Component - 27 Credits

The Business Core courses include several advanced business courses constituting a core set of advanced business competencies required of all MBA graduates. Business Core courses are designed to develop competencies which the business community requires of MBA graduates and skills that differentiate the MBA graduate as an executive level decision maker. Upon successful completion of all Business Core Courses, the student is eligible to sit for the required MBA Comprehensive Exam.

Information Technology (IT) MBA Track Core Component Alternative - 27 credits

Students selecting the Information Technology MBA Track will complete the Business Core courses and three advanced level Management Information Systems core courses. These courses include advanced business and information system courses constituting a core set of business competencies required of all MBA graduates. Information Technology MBA Track Core courses are designed to develop competencies which the business community requires of MBA graduates and skills that differentiate the MBA graduate as an executive level decision maker. Upon successful completion of all Information Technology MBA Track Core Courses, the student is eligible to sit for the required MBA Comprehensive Exam.

Elective Component - 3-9 Credits

The MBA Elective courses provide the student with an opportunity to strengthen his/her academic preparation in specific areas of business and management. The Elective Component is designed by the student and faculty advisor to meet the individual needs of the student.

Information Technology MBA Track Elective Component - 9 credits

Students selecting the Information Technology MBA Track must also select the Information Technology MBA Track elective component and complete a minimum of three courses to complement the core. The Information Technology MBA Track Elective courses provide the student with an opportunity to strengthen his/her academic preparation in specific areas of information systems management. The Elective Component is designed by the student and faculty advisor to meet the individual needs of the student.

Concentration Component Alternative - 9 Credits

As an alternative to electives, or in partial fulfillment of the Elective Component, students may declare an area of concentration where they wish to develop special expertise to fulfill personal or career interests. A concentration requires a total of 9 credits in the concentration, beyond the required core courses.

MBA DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Business Administration degree, candidates must:

1. Be admitted to the MBA Program; and
2. Complete 48 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:
 - 18 credits in Common Body of Knowledge (CBK) Courses
 - 27 credits in Business Core Courses
 - 3 credits in Elective/Concentration Courses
 - OR
 - satisfy all of the CBK waiver policy and complete at least 36 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:
 - 27 credits in Business Core Courses
 - 9 credits in Elective/Concentration Courses
 - OR
 - satisfy a portion of the CBK waiver policy and complete at least 36 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:
 - 3 - 15 credits in Common Body of Knowledge (CBK) Courses
 - 27 credits in Business Core Courses
 - 3 - 9 credits in Elective/Concentration Courses
 - 3. Successfully complete the MBA Comprehensive Examination; and
 - 4. Successfully complete a Professional Portfolio; and
 - 5. Meet all program requirements within five years of initial enrollment; and
 - 6. Satisfy all financial obligations with the University.

Note 1: The last 27 semester credits must be completed at Hodges University.

Note 2: In cases where students have previously completed equivalent course work with a grade of “B” or better, the Graduate Program Committee may waive up to 18 credits of Common Body of Knowledge (CBK) course work.

MAN6603	Operations Management	3
	Marketing	
MKT6930	Seminar in Marketing <i>and select two of the following:</i>	3
GEB6007	Seminar in Business Intelligence	3
MKT6700	Marketing Research	3
MKT6830	International Marketing	3
	Public Administration	9
	<u>Three</u> approved 5000 or 6000 level Public Administration courses of the student's choice. Students must meet all prerequisites.	

CBK WAIVER POLICY

A maximum of 18 credits of CBK course work may be waived by the Graduate Program Committee if the student has completed preparatory undergraduate course work with a grade of “B” or higher from an accredited institution within the past five years. Course waivers will only be considered if the student has met the minimum equivalency requirements shown below:

	<u>CBK Courses</u>	<u>Minimum Waiver Requirements</u>
ACG5025	Accounting for Managers	6 credits of accounting principles
ECO5705	Managerial Economic	6 credits of micro/macroeconomics
ISM5021	Management Information Systems	3 credits of management information systems or 6 credits of any CIS/CIT/MIS
MAN5055	Management Processes	3 credits of management principles
MKT5815	Marketing Management	3 credits of marketing principles
QMB5305	Statistics for Management	3 credits of introductory statistics

In the event courses are not completed within the past five years, students may demonstrate comprehension through a comprehensive examination on the subject matter. CBK course waivers may be considered upon successful completion of this examination.

COURSE WAIVER POLICY

A required course, or courses, may be waived by the Program Chair/Director if evidence of substantially equivalent academic preparation is provided and program degree credit hour requirements are not reduced.

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by a successful completion of a comprehensive examination.

COMPREHENSIVE EXAMINATION

The comprehensive examination for the MBA students is an important element for measuring the quality of the program. The MBA comprehensive examination measures the comprehension and integration of every core course in the MBA degree.

ESTIMATED DEGREE COMPLETION TIME

A full-time student may complete the MBA Program within six terms (two calendar years). Those students who qualify for maximum CBK course waivers may complete the program in as little as four terms.

MASTER OF INFORMATION SYSTEMS MANAGEMENT (MIS)

MIS PROGRAM DESCRIPTION

The Master of Information Systems Management (MIS) is designed as a comprehensive and contemporary study of the management and utilization of the various aspects of information systems. The program is geared toward students who have an interest and/or experience in the field of information systems and who have a desire to take advanced or graduate level courses to improve their education, enhance their opportunities for advancement, or better prepare for a career change. Concentrations are offered to allow the student to focus on specific interests or types of information systems.

MIS ADMISSION REQUIREMENTS

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level course work; and
5. Acceptable GRE or GMAT scores or results on the ICCP Core Exam or on the MIS Admissions Test; and
6. Acceptable results on the CAP1000 test-out or college course equivalent; and
7. Two letters of recommendation.

The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience, or other extenuating factors, may apply for Conditional Admission if their GPA (last 60 college credits) is less than 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made either to allow the student to continue or terminate the student's enrollment.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admission requirements. The University is not responsible for any expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admission requirements. The student bears the entire risk for Conditional Admission and there will be no appeal of the Graduate Program Admissions Committee's findings.

MIS PROGRAM OF STUDY

The MIS Program consists of five components: Common Body of Knowledge (CBK) courses, Core courses, Integration courses, Concentration courses, and Capstone course. Depending upon the concentration chosen, the entire degree can be completed online. Local students may also be able to complete some of the courses in the classroom. Most, but not all, concentrations can be completed online; local students will have a wider range of options. The CBK courses are designed to provide a basic foundation of academic preparation for advanced course work, and assume that the student has little or no prior academic preparation in the area of study. The CBK courses are considered minimum preparation before advanced study may proceed. Students who have demonstrated specific competencies in undergraduate course work may be granted waivers for courses in the CBK component. Equivalency waiver requirements are shown under the CBK Waiver Policy.

MIS DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Information Systems Management, the candidate must:

1. Complete 6 semester hours of Common Body of Knowledge (CBK) courses with no grade below a “C” OR satisfy the CBK waiver policy; and
2. Complete 30 semester hours of required courses. Graduate GPA must be 3.0 or higher, with no course grade below a “C”; and
3. Receive a grade of “B” or better in the MIS capstone course (ISM 6190), completing the MIS Professional Portfolio; and
4. Meet all program requirements within five years of initial enrollment; and
5. Satisfy all financial obligations with the University.

Note: The last 21 semester credits must be completed at Hodges University.

		<u>Semester Hour Credit</u>
<u>Common Body of Knowledge (CBK) Component</u>		
ISM5021	Management Information Systems	3
ISM5110	Project Management	3
Total CBK Component		6

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, papers, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by successful completion of the graduate portfolio.

COMMON BODY OF KNOWLEDGE (CBK) WAIVER POLICY

A maximum of 6 credits of CBK course work may be waived by the Graduate Program Committee if the student has completed preparatory undergraduate course work with a grade of “B” or higher from an accredited institution within the past five years. Course waivers will only be considered if the student has met the minimum equivalency requirements shown below:

	<u>CBK Courses</u>	<u>Minimum Waiver Requirements</u>
ISM5021	Management Information Systems	3 credits of management information systems or 6 credits of any CIS/CIT/MIS
ISM5110	Project Management	3 credits of project management

COURSE WAIVER POLICY

A required course, or courses, may be waived by the Program Chair/Director if evidence of substantially equivalent academic preparation is provided and program degree credit hour requirements are not reduced.

ESTIMATED DEGREE COMPLETION TIME

A full-time student requiring no CBK courses taking three courses per term may complete the Master of Information Systems Management in four terms. A part-time student taking two courses per term may complete the Master of Information Systems Management in five terms. All degree requirements must be met within five years.

MASTER OF PROFESSIONAL STUDIES (MPS)

MPS PROGRAM DESCRIPTION

The Master of Professional Studies (MPS) degree is designed to provide an advanced level of understanding in professional areas of study or for those students seeking a broad interdisciplinary approach to knowledge. Graduates of the program will be prepared for advanced positions in organizations that focus on a global environment and the ability to analyze issues through multiple lenses. Students in the program will be able to solve complex social, economic and political problems by learning how to think expansively, apply knowledge and integrate various resources. MPS graduates are required to successfully complete four professional studies core courses and select six courses from one of the professional tracks in psychology, education, professional leadership or an interdisciplinary track. Graduate students will integrate and apply knowledge from the professional core courses to the professional track. Students may also self design an interdisciplinary concentration under the direction and approval of the Program Director.

MPS ADMISSION REQUIREMENTS

The MPS program is comprised of advanced academic course work and, therefore, admission is only granted to applicants who display a high probability of success in graduate level study. Eligibility for admission is determined by the Graduate Program Committee, based on prior academic performance, MPS Admissions Test results, and/or other relevant demonstrations of preparation for graduate study.

Admission to the MPS program requires the following:

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level work; and
5. Acceptable results on the MPS Admission Test; and
6. Two letters of recommendation.

The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience, or other extenuating factors, may apply for Conditional Admission if their GPA (last 60 college credits) is less than a 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made either to allow the student to continue or terminate the student's enrollment.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admissions requirements. The University is not responsible for any expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admissions requirements. The student bears the total risk for Conditional Admission and there will be no appeal of the Committee's findings.

MPS PROGRAM OF STUDY

The MPS Program is a multi-faceted program that can be customized to meet academic and career needs. The program is designed to be delivered online and in an accelerated format. The program consists of 30 credit hours, or

ten 3-credit courses, that can be completed in either 4 or 5 trimesters. Students taking classes in the accelerated format attend class one evening per week and earn six credits. This format requires extensive outside study and preparation for comprehensive in-class development of the material. The student must complete and pass the two accelerated courses each term or repeat both classes. Students taking classes online may take classes in a combination format (weekend classes and online classes) or totally online.

Students are required to take four professional core courses (12 credit hours) offered online or in the traditional classroom setting. These courses are offered as single classes over a 15 week semester. Students can choose one of the three professional tracks for the remaining courses or self-design an interdisciplinary track with the guidance of the Program Director. The professional tracks consist of six courses (18 credit hours) and are delivered in the accelerated format or online.

The convenient schedule and the applicability to the workplace attract full-time working professionals who are interested in graduate education without interruption to their careers. The accelerated learning format is designed to facilitate success in a rapidly changing global work environment.

Professional Studies Core Component (12 credits)

The Professional Studies Core Component courses are designed to provide the student with a solid background in competencies that complement the discipline-specific courses listed in the tracks within the program.

Discipline-Specific Tracks (18 Credits)

Students must declare which track they wish to develop special expertise to fulfill personal or career interests. Each track consists of 18 credits.

MPS DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Professional Studies, the candidate must:

1. Complete 30 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a C; and
2. Successfully complete the exit assessment requirements for the program; and
3. Successfully complete a Professional Portfolio; and
4. Meet all program requirements within five years of initial enrollment; and
5. Satisfy all financial obligations with the University.

Note: The last 21 semester credits must be completed at Hodges University.

MPS ACADEMIC COURSE STRUCTURE

Graduates of the MPS program must successfully complete the following degree components with a minimum of C in all course work with an overall GPA of 3.0.

		<u>Semester Hour Credit</u>
	<u>Professional Studies Core</u>	
IDS5226	Research Methods	3
IDS6376	Professional Ethics, Social Responsibility and Diversity	3
MAN5055	Management Processes	3
EDU6110	Instructional Theories and Techniques for the Adult Learner	
or	IDS6903 Directed Research Project	3
IDS6001	Professional Portfolio	0
	Total Professional Studies Core	12

		<u>Semester Hour Credit</u>
Education Track		
EDU5000	Foundations of Education	3
EDU5001	Group Theory and Classroom Application	3
EDU5100	Instructional Technology Tools and Management	3
EDU6000	Multicultural Education	3
EDU6001	Comparative Educational Delivery Systems	3
EDU6130	Educational Leadership	3
Total Education Track		18
Psychology Track		
PSY6201	Stress Management and Behavior	3
PSY5200	Special Topics in Crime and Social Morality	3
PSY6300	Psychosocial Theory and Applications	3
PSY6301	Substance Abuse Theory and Prevention Methodology	3
PSY6302	Human Sexuality	3
PSY6304	Gender and Society	3
Total Psychology Track		18
Professional Leadership Track		
IDS6400	Foundations of Professional Leadership Research	3
IDS6405	Leadership and Organizational Culture	3
IDS6410	Interpersonal Communication and Leadership	3
IDS6415	Transformational Leadership and Organizational Development	3
IDS6420	Gender and Leadership	3
IDS6425	Global Leadership	3
Total Professional Leadership Track		18
Interdisciplinary Track		
Students select 6 courses from any of the graduate programs offered at the University to design a degree plan for professional or personal improvement. This plan must be developed in conjunction with a faculty advisor and students must meet the prerequisites needed to take the courses that they include in their plan. Students may opt to take more than 30 credits to complete their degree in accordance with their stated objectives.		
Total Interdisciplinary Track		18
Total Semester Hours for Graduation		30

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by successful completion of a professional portfolio.

ESTIMATED DEGREE COMPLETION TIME

A student may complete the MPS program within four terms.

MASTER OF PUBLIC ADMINISTRATION (MPA)

MPA PROGRAM DESCRIPTION

The Master of Public Administration (MPA) is a general public sector professional degree program, intended to prepare graduates for managerial roles in government and non-profit enterprises. Graduates of the program will be equipped with the knowledge and skills required to lead and contribute to organizational success at the executive level. Mastery of the critical competencies such as governmental and non-profit administration, policy planning, decision making, environmental scanning, finance, budgeting, and research are included in the MPA program of study. MPA graduates are required to successfully complete prescribed course work in the Public Administration Core and may opt for a Concentration in an area of specialty. All students must successfully complete a Professional Portfolio in order to graduate. The MPA Program can be completed in an online format, an in-class format, or a combination of both.

MPA ADMISSION REQUIREMENTS

The MPA program is comprised of advanced academic course work and, therefore, admission is only granted to applicants who display a high probability of success in graduate level study. Eligibility for admission is determined by the Graduate Program Committee, based on prior academic performance, MPA Admissions Test results, and/or other relevant demonstrations of preparation for graduate study. The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

Admission to the MPA program requires the following:

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior college and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level course work; and
5. Acceptable results on the MPA Admissions Test; and
6. Two letters of recommendation.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience, or other extenuating factors, may apply for Conditional Admission if their GPA (last 60 college credits) is less than 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made to either allow the student to continue or terminate the student's enrollment.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admission requirements. The University is not responsible for any expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admission requirements. The student bears the total risk for Conditional Admission and there will be no appeal of the Committee's findings.

MPA PROGRAM OF STUDY

Common Body of Knowledge Component (CBK) – 9 Credits

The Common Body of Knowledge (CBK) courses are designed to provide a basic foundation of academic preparation for advanced course work. The CBK courses assume that the student has little or no prior academic preparation in each area of study. The CBK courses are considered minimum preparation in introductory graduate study before advanced study may proceed. Completion of CBK courses demonstrates the student's proficiency in

three areas of preparatory knowledge that will support success at the graduate level. Students demonstrating specific competencies in undergraduate course work or demonstrating the ability to successfully complete an examination covering the fundamentals in the required subject area, may be granted waivers for courses in the CBK component. Equivalency waiver requirements are shown under *Waiver Policy*.

Public Administration Core – Comprehensive Examination Option (30 Credits)

The Public Administration Core Component courses are designed to provide the student with a solid grounding in executive competencies that may be employed in advanced public administration. These courses are designed to develop competencies and legal awareness that the public sector requires of MPA graduates and skills that differentiate the MPA graduate as an executive level decision maker. The completion of PAC courses demonstrates the student’s proficiency in public administration knowledge. The 30 credit option requires students to successfully complete a comprehensive examination as a requirement for graduation.

Public Administration Core – Capstone Course Option (36 Credits)

The Public Administration 12 course option requires two additional Core Component courses. These additional courses are designed to provide the student with additional executive competencies that may be employed in advanced public administration and non-profit management. The Public Administration Capstone course must be taken as the final core course or, with the approval of the instructor, in conjunction with the final core course in the 12 course MPA option. The student must have a 3.0 grade point average to take this course and must achieve at least a grade of “B” to successfully complete this course. These courses are designed to develop competencies and legal awareness that the public sector requires of MPA graduates and skills that differentiate the MPA graduate as an executive level decision maker. The completion of the two additional courses in the 12 course option demonstrates the student’s proficiency in Public Administration knowledge and substitutes for the comprehensive examination as a requirement for graduation.

MPA DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Public Administration degree, candidates must:

1. Be admitted to the MPA Program; and
2. Complete 30-39 semester credit hours of required courses under the Comprehensive Exam Option with a grade point average of at least 3.0, with no course grade below a C, as follows:
 - 9 credits in Common Body of Knowledge (CBK) Courses
 - 30 credits in Public Administration Core-Comprehensive Exam Option Courses
 - OR
 - satisfy all of the CBK waiver policy and complete at least 30 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:
 - 30 credits in Public Administration Core-Comprehensive Exam Option Courses
 - OR
 - satisfy a portion of the CBK waiver policy and complete at least 30 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:
 - 3 - 9 credits in Common Body of Knowledge (CBK) Courses
 - 30 credits in Public Administration Core-Comprehensive Exam Option Courses
 - OR
 - Complete 36-45 semester hours of required courses under the Capstone Course Option with a grade point average of at least 3.0, with no course grade below a C, as follows:
 - 9 credits in Common Body of Knowledge (CBK) Courses
 - 36 credits in Public Administration Core-Capstone Course Option Courses
 - OR
 - satisfy all of the CBK waiver policy and complete at least 36 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:
 - 36 credits in Public Administration Core- Capstone Course Option Courses
 - OR

satisfy a portion of the CBK waiver policy and complete at least 30 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a “C”, as follows:

- 3 - 9 credits in Common Body of Knowledge (CBK) Courses
- 36 credits in Public Administration Core- Capstone Course Option Courses; and
- 3. Successfully complete the MPA Comprehensive Examination (10 course option only); and
- 4. Successfully complete a Professional Portfolio; and
- 5. Meet all program requirements within five years of initial enrollment; and
- 6. Satisfy all financial obligations with the University.

Note: The last 21 semester credits must be completed at Hodges University.

		<u>Semester Hour Credit</u>
<u>Common Body of Knowledge (CBK)</u>		
PAD5021	Management Information Technology	3
PAD5055	Management Processes	3
PAD5305	Statistics for Managers	3
Total Common Body of Knowledge Component		9
 <u>Comprehensive Examination Option – 30 Credits</u>

 <u>Capstone Option – 36 Credit (Optional)</u>		
PAD6710	Economic Development	3
PAD6950	Public Administration Capstone Project	3
Total Semester Hours Required for Graduation		36-45

Note: While there is only one concentration in the MPA degree program, students may select any of our approved concentrations or create an individually tailored concentration with the approval of the Program Chair/Director.

CBK WAIVER POLICY

A maximum of 9 credits of CBK course work may be waived by the Graduate Program Committee if the student has completed preparatory undergraduate course work with a grade of "B" or higher from an accredited institution within the past five years. Course waivers will only be considered if the student has met the minimum equivalency requirements shown below:

	<u>CBK Courses</u>	<u>Minimum Waiver Requirements</u>
PAD5021	Management Information Technology	3 credits of management information systems or 6 credits of any CIS/CIT/MIS
PAD5055	Management Processes	3 credits of management principles
PAD5305	Statistics for Management	3 credits of introductory statistics

In the event courses are not completed within the past five years, students may demonstrate comprehension through an examination on the subject matter. CBK course waivers may be considered upon successful completion of this examination.

COURSE WAIVER POLICY

A required course, or courses, may be waived by the Program Chair/Director if evidence of substantially equivalent academic preparation is provided and program degree credit hour requirements are not reduced.

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by a successful completion of a comprehensive examination or through a capstone project based on the option selected by the student.

COMPREHENSIVE EXAMINATION

The comprehensive examination for the MPA students is an important element for measuring the quality of the program. The MPA comprehensive examination measures the comprehension and integration of every core course in the MPA degree and is required if the Comprehensive Examination Option is selected.

CAPSTONE COURSE

This seminar course is the capstone assessment course and requires the Public Administration student to integrate knowledge gained from all program courses and is required if the Capstone Option is selected.

ACADEMIC PROGRAM PLANNING

The student and faculty advisor will prepare a detailed *Approved Program of Study* to guide each student to successful program completion in a timely manner. The *Approved Program of Study* will become part of the student's official academic records. Changes to the *Approved Program of Study* may not be made without the approval of the faculty advisor.

ESTIMATED DEGREE COMPLETION TIME

A full-time student may complete the MPA program within four terms.

MASTER OF SCIENCE IN COMPUTER INFORMATION TECHNOLOGY (MCT)

MCT PROGRAM DESCRIPTION

The Master of Science in Computer Information Technology (MCT) is designed as a comprehensive and contemporary study of the organization, design, development, and management of the various aspects of computer information technology. The program is geared toward students who have an interest and/or experience in the field of computer information technology and who have a desire to take graduate level courses to improve their education, enhance their opportunities for advancement, or better prepare for a career change. Concentrations are offered to allow the student to focus on specific interests or areas within computer information technology.

MCT ADMISSION REQUIREMENTS

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level course work; and
5. Completion of the MCT Foundation Courses, or equivalent; and
6. A score of 50 or higher on the entrance assessment exam (the Institute for Certification of Computing Professionals [ICCP] core exam); and
7. Two letters of recommendation.

The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience, or other extenuating factors, may apply for Conditional Admission if their GPA (last 60 college credits) is less than 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made either to allow the student to continue or terminate the student's enrollment.

Students who have completed at least three of the MCT Foundation Courses (or equivalent) may be accepted into the program for up to two terms only upon the recommendation of the Graduate Program Committee. In order to remain in the program, students must maintain a 3.0, or higher, GPA during their conditional period, and complete at least one additional MCT Foundation Course with a grade of B or higher per term.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admission requirements. The University is not responsible for any expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admission requirements. The student bears the entire risk for Conditional Admission and there will be no appeal of the Graduate Program Admissions Committee's findings.

MCT PROGRAM OF STUDY

The MCT Program consists of four components: core courses, integration course, concentration courses, and a project/thesis. Additionally, the MCT Foundation courses are a required prerequisite for students who do not have the equivalent undergraduate courses.

MCT DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Science in Computer Information Technology, the candidate must:

1. Complete 30 semester hours of required courses. Graduate GPA must be 3.0 or higher, with no course grade below a C. At least 24 of the semester hours must be completed at Hodges University; and
2. Receive a grade of B or better on the MCT Project and/or Thesis; and
3. Successfully complete a Professional Portfolio; and
4. Meet all program requirements within five years of initial enrollment; and
5. Satisfy all financial obligations with the University.

Note: The last 21 semester credits must be completed at Hodges University.

MCT FOUNDATION COURSES

The MCT foundation courses represent the minimum level of prerequisite knowledge required for success in the MCT program. These courses are intended to prepare students with non-computer-oriented undergraduate degrees for continuing on into the MCT program. It is anticipated that most or all of these courses will be waived for most students with undergraduate degrees in Computer Information Technology, Computer Science, Computer Information Systems, Management Information Systems and/or Business Information Systems.

		<u>Semester Hour Credit</u>

Total Semester Hours Required for Graduation		30

COURSE WAIVER POLICY

A required course, or courses, may be waived by the Program Chair/Director if evidence of substantially equivalent academic preparation is provided and program degree credit hour requirements are not reduced.

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, papers, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by successful completion of CIT 6900 and/or CIT 6910, and completion of the Professional Portfolio.

ESTIMATED DEGREE COMPLETION TIME

A full-time student taking three courses per term may complete the Master of Science in Computer Information Technology in four terms. A part-time student taking two courses per term may complete the Master of Science in Computer Information Technology in five terms. All degree requirements must be met within five years.

MASTER OF SCIENCE IN HEALTH ADMINISTRATION (MHA)

PROGRAM DESCRIPTION

The Master of Science in Health Administration Program (MHA) is designed to provide graduate level education to individuals who are capable of assuming leadership positions in a variety of health services organizations. Examples of the type of providers include hospitals, community health centers, government and other public sector providers, group practices, health maintenance organizations, home health agencies, long-term care and mental health organizations. The degree is also designed for experienced healthcare managers seeking to further develop their administrative knowledge, skills, and abilities to enhance their contributions to the healthcare industry.

The total program consists of 33 - 45 semester hours at the graduate level. This normally requires two years for a full time student and three and one half to four years for part-time students. A comprehensive exam (oral and written) is given to all candidates for the MHA Degree. To be eligible, students must have completed all of their core course work or be enrolled in their last semester.

The core MHA courses are offered in a convenient format, allowing full time working professionals to complete their graduate education without interruption to their careers. The learning is current, accelerated and designed to facilitate success in a rapidly changing and increasingly competitive healthcare environment.

MHA ADMISSION REQUIREMENTS

The MHA program is comprised of advanced academic course work and, therefore, admission is only granted to applicants who display a high probability of success in graduate level study. Eligibility for admission is determined by the Graduate Program Committee, based on prior academic performance, MHA Admissions Test results, and/or other relevant demonstrations of preparation for graduate study. The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

Admission to the MHA program requires the following:

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level course work; and
5. Acceptable results on the MHA Admissions Test; and
6. Two letters of recommendation.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience, or other extenuating factors, may apply for Conditional Admission if their GPA (last 60 college credits) is less than 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made either to allow the student to continue or terminate the student's enrollment.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admission requirements. The University is not responsible for any expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admission requirements. The student bears the total risk for Conditional Admission and there will be no appeal of the Committee's findings.

MHA PROGRAM OF STUDY

Common Body of Knowledge Component (CBK) - 15 Credits

The Common Body of Knowledge (CBK) courses are designed to provide a basic foundation of academic preparation for advanced course work. The CBK courses assume that the student has little or no prior academic preparation in each area of study. The CBK courses are considered minimum preparation in introductory areas of healthcare before advanced study may proceed. Completion of CBK courses demonstrates the student's proficiency in four areas of healthcare, as well as a knowledge of statistics. Students demonstrating specific competencies in undergraduate course work or demonstrating the ability to successfully complete an examination covering the fundamentals in the required subject area, may be granted waivers for courses in the CBK component. Equivalency waiver requirements are shown under *CBK Waiver Policy*.

Healthcare Core Component - 24 Credits

The Healthcare Core courses include several advanced healthcare courses constituting a core set of advanced competencies required of all MHA graduates. Healthcare Core courses are designed to develop competencies which the healthcare community requires of MHA graduates and skills that differentiate the MHA graduate as an executive level decision maker. Upon successful completion of all Healthcare Core courses, the student is eligible to sit for the required MHA Comprehensive Exam.

Elective Component – 6-9 Credits

The MHA Elective courses provide the student with an opportunity to strengthen his/her academic preparation in specific areas of healthcare and management and satisfy the 33 semester credit requirement. The Elective Component is designed by the student and Program Chair to meet the individual needs of the student.

MHA DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Health Administration degree, candidates must:

1. Be admitted to the MHA program; and complete a MINIMUM of 33 semester credit hours
2. Complete 45 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a "C", as follows:
 - 15 credits in Common Body of Knowledge (CBK) Courses
 - 24 credits in Healthcare Core Courses
 - 6 credits in Elective CoursesOR
 - satisfy all of the CBK waiver policy and complete at least 33 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a "C", as follows:
 - 24 credits in Healthcare Core Courses
 - 9 credits in Elective CoursesOR
 - satisfy a portion of the CBK waiver policy and complete at least 33 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a "C", as follows:
 - 3 - 15 credits in Common Body of Knowledge (CBK) Courses
 - 24 credits in Healthcare Core Courses
 - 6-9 credits in Elective Courses
3. Successfully complete the MHA Comprehensive Examination; and
4. Successfully complete a Professional Portfolio; and
5. Meet all program requirements within five years of initial enrollment; and
6. Satisfy all financial obligations with the University.
 - Note 1: The last 24 semester credits must be completed at Hodges University.
 - Note 2: In cases where students have previously completed equivalent course work with a grade of "B" or better, the Graduate Program Committee may waive up to 15 credits of Common Body of Knowledge (CBK) course work.

		<u>Semester Hour Credit</u>
<u>Common Body Of Knowledge Component (CBK)</u>		
HSA5111	United States Healthcare System	3
MAN5055	Management Processes	3
QMB5305	Statistics for Managers	3
HSA5125	Financial Management in Health Services	3
HSA5130	Healthcare Regulation and the Law	3
Total Common Body of Knowledge Component		15
<u>Healthcare Core Component</u>		
IDS5226	Research Methods	3
IDS6376	Professional Ethics, Social Responsibility, and Diversity	3
HSA6010	Public Health Interventions in the 21 st Century	3
HSA6020	Comparative Health Policy	3
HSA6030	Strategic Planning and Finance in Healthcare	3
HSA6040	Healthcare Leadership	3
HSA6050	Healthcare Information Systems	3
HSA6060	Seminar in Health Administration	3
Total Healthcare Core Component		24
<u>Elective Component</u>		
With approval from the Program Chair, students will select from courses in the MBA and MPS program or from courses listed below:		
HSA6072	Long Term Care Administration	3
HSA6074	Policy and Politics in Healthcare	3
HSA6096	Directed Study in Healthcare	3
Minimum Elective Component		6-9
Total Semester Hours Required for Graduation		33-45

CBK WAIVER POLICY

A maximum of 15 credits of CBK course work may be waived by the Graduate Program Committee if the student has completed preparatory undergraduate course work with a grade of “B” or higher from an accredited institution within the past five years. Course waivers will only be considered if the student has met the minimum equivalency requirements shown below:

	<u>CBK Courses</u>	<u>Minimum Waiver Requirements</u>
HSA5111	United States Healthcare	6 credits of structure, function and system delivery of the healthcare system
MAN5055	Management Processes	3 credits of healthcare management principles or 3 credits of management principles
QMB5305	Statistics for Management	3 credits of introductory statistics
HSA5125	Financial Management in Health Services	3 credits of healthcare finance or 3 credits of accounting principles and 3 credits of healthcare reimbursement principles
HSA5130	Healthcare Regulation and the Law	3 credits in healthcare law

In the event courses have not been completed within the past five years, students may demonstrate comprehension through a comprehensive examination on the subject matter. CBK course waivers may be considered upon successful completion of this examination.

COURSE WAIVER POLICY

A required course, or courses, may be waived by the Program Chair/Director if evidence of substantially equivalent academic preparation is provided and program degree credit hour requirements are not reduced.

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by a comprehensive examination.

COMPREHENSIVE EXAMINATION

The comprehensive examination for the MHA students is an important element for measuring the quality of the program. The MHA comprehensive examination measures the comprehension and integration of every core course in the MHA degree.

COMPLETION TIME

The MHA Program is designed to be delivered online and in an accelerated class format and may be completed in 4 trimesters if no CBK's are required. Students taking classes in the accelerated format attend class one night per week and earn 6 credits. This format requires extensive outside preparation for comprehensive in-class development of the material. The student must complete and pass the two accelerated courses each term or repeat both courses.

MASTER OF SCIENCE IN CRIMINAL JUSTICE (MCJ)

MCJ PROGRAM DESCRIPTION

The Master of Science Degree in Criminal Justice (MCJ) is designed as a comprehensive and contemporary study of the criminal justice system. The program is conceptually based, thereby offering students the opportunity to develop a theoretical understanding of criminal and deviant behavior that is applicable to the practical realities of the criminal justice professional. Students considering a doctoral program of study upon completion of the MCJ program may complete a thesis option for an additional six credits

MCJ ADMISSION REQUIREMENTS

The admissions requirements for the program are as follows:

1. Completion of the Application for Graduate Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. College level work or documented experience in Criminology, Criminal Law, Computer Applications, Statistics, and Research Methodology. The behavioral science track also requires 12 credits of upper level psychology courses.
5. A GPA of 2.5, or higher, in the last 60 credits of college-level course work; and
6. A score of 70 or higher on the assessment exam; and
7. Two letters of recommendation.

The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

CONDITIONAL ADMISSION

Students who do not achieve a score of 70, or higher, on the assessment exam may be accepted into the program for one term only upon the recommendation of the Graduate Program Committee. In order to remain in the program, students must achieve a 3.0, or higher, GPA in their first term of enrollment.

Note: Students who require an undergraduate course(s) to achieve admission into the graduate program may request to enroll in an undergraduate course(s) provided they are enrolled in at least one graduate level course. They must complete the undergraduate course with a grade of B or better by the end of their second term to be admitted into the program.

MCJ PROGRAM OF STUDY

The MCJ Program is designed to be delivered online or in an accelerated class format. Students may choose from four tracks of study: Administration, Behavioral Sciences, Intelligence and Terrorism, or General Criminal Justice. Students may take classes online, in class, or a combination of the two. The program consists of 30 credit hours, or ten 3-credit courses, that can be completed in 4 or 5 trimesters. Students taking classes in the accelerated format attend class once per week and earn 6 credits. This format requires extensive outside study and preparation for the comprehensive in class development of the material. The student must complete and pass the two accelerated courses each term or repeat both classes. Students taking classes online may complete the program at their own pace, as long as they complete all degree requirements within five years of enrollment. Students selecting the thesis option will be required to complete 36 credit hours.

MCJ DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Science in Criminal Justice, the candidate must:

1. Complete 30 semester hours of required courses with a GPA of 3.0 or higher, with no course grade below a "C". The last 21 semester hours must be completed at Hodges University; and
2. Meet all program requirements within five years of initial enrollment; and
3. Successfully complete the exit assessment requirements for the Program; and
4. Successfully complete a Professional Portfolio; and
5. Satisfy all financial obligations with the University.

Note: The last 21 semester credits must be completed at Hodges University.

MCJ ACADEMIC COURSE STRUCTURE

Graduates of the MCJ program must successfully complete the following degree components with a minimum grade of C in all course work and an overall GPA of 3.0.

		<u>Semester Hour Credit</u>
<u>Online Foundation Courses</u>		
GEB5226	Research Methods	3
MAN5055	Management Processes	3

General Criminal Justice Track		
Students select six courses from the MCJ Tracks in consultation with and approval by the Program Chair.		
<u>MCJ Thesis Option</u>		
MCJ6400	Research and Thesis in Criminal Justice	6
MCJ6999	Exit Assessment	0
Total Semester Hours Required for Graduation		36

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement will be measured by examinations, projects, presentations, and other measurements deemed appropriate by the professor and/or Graduate Program Committee.

COURSE WAIVER POLICY

A required course, or courses, may be waived by the Program Chair/Director if evidence of substantially equivalent academic preparation is provided and program degree credit hour requirements are not reduced.

ESTIMATED DEGREE COMPLETION TIME

A full-time student may complete the Master of Criminal Justice Program within four terms. All degree requirements must be met within five years.

MASTER OF SCIENCE IN MANAGEMENT (MSM)

MSM PROGRAM DESCRIPTION

The Master of Science in Management is a unique program of study, specifically designed to prepare working professionals for increasing responsibility in management positions in contemporary organizations. The program is designed to bridge the gap between theory and practice and develops competencies in decision making, leading people, developing team players, and facilitating change in today's diverse organizations and society. MSM graduates have the skills to think critically, create vision based on ethical values, discern the future, take risks, become global leaders, and institute change within their organizations. These management skills can be applied in a broad range of professional settings in both the private and public sectors, in production and service-oriented activities, and in traditional as well as high-technology environments. The MSM Program can be completed in an online format, an in-class format, or a combination of both.

The convenient schedule and the applicability of the learning to the workplace attract full-time working professionals who are interested in graduate education without interruption to their careers. The learning is current, streamlined, accelerated, and designed to facilitate success in a rapidly changing and increasingly global work environment.

MSM ADMISSION REQUIREMENTS

The MSM program is comprised of advanced academic course work and, therefore, admission is only granted to applicants who display a high probability of success in graduate level study. Eligibility for admission is determined by the Graduate Program Committee, based on prior academic performance, MSM Admissions Test results, and/or other relevant demonstrations of preparation for graduate study.

Admission to the MSM program requires the following:

1. Completion of the Application for Graduate Program Admission; and
2. A bachelor's degree from an accredited college or university; and
3. Official transcripts from all prior colleges and universities; and
4. GPA of 3.0 or higher in the last 60 credits of college-level course work; and
5. Acceptable results on the MSM Admissions Test; and
6. Two letters of recommendation

The University reserves the right to deny admission to an applicant when such action is deemed to be in the best interest of the applicant or the University.

CONDITIONAL ADMISSION

Applicants who demonstrate a high potential for graduate study due to professional experience, or other extenuating factors, may apply for Conditional Admission if their GPA (last 60 college credits) is less than 3.0, but 2.5 or higher. If the Graduate Admissions Committee approves such a Conditional Admission, the student may be admitted for one term only, during which time the student must demonstrate the ability to attain a 3.0 GPA in at least six credit hours of course work. At the end of the first term, the student's academic record will be evaluated by the Committee and a final decision will be made either to allow the student to continue or terminate the student's enrollment.

Conditional Admission may only be granted with the applicant's written understanding and acceptance of responsibility for successfully completing all admission requirements. The University is not responsible for any expense incurred by a student who requests Conditional Admission and is later denied continued enrollment, due to failing to meet admission requirements. The student bears the total risk for Conditional Admission and there will be no appeal of the Committee's findings.

MSM PROGRAM OF STUDY

The MSM Program is designed to be delivered online and in an accelerated class format. The program consists of 30 credit hours, or ten 3-credit courses, that can be completed in 4 or 5 trimesters. Students taking classes in the accelerated format attend class one night per week and earn 6 credits. This format requires extensive outside study and preparation for comprehensive in-class development of the material. The student must complete and pass the two accelerated courses each term or repeat both classes.

Management Core Component (12 Credits)

The Management Core Component courses are designed to provide the student with a solid foundation in executive competencies that may be employed in advanced management situations. Courses are designed to develop competencies that the private and public sectors require of MSM graduates and skills that differentiate the MSM graduate as an executive-level manager.

Track Component (18 Credits)

Students must declare Executive Management, Human Resources Management, Contingency Planning or Risk Management as an area of study where they wish to develop special expertise to fulfill personal or career interests. Each track consists of 18 credits.

MSM DEGREE COMPLETION REQUIREMENTS

To qualify for the Master of Science in Management, the candidate must:

1. Complete 30 semester credit hours of required courses with a grade point average of at least 3.0, with no course grade below a C; and
2. Successfully complete the exit assessment requirements for the program; and
3. Successfully complete a Professional Portfolio; and
4. Meet all program requirements within five years of initial enrollment; and
5. Satisfy all financial obligations with the University.

Note: The last 24 semester credits must be completed at Hodges University.

MSM ACADEMIC COURSE STRUCTURE

Graduates of the MSM program must successfully complete the following degree components with a minimum grade of C in all course work and an overall GPA of 3.0.

		<u>Semester Hour Credit</u>
<u>Management Core Component</u>		
GEB6226	Research Methods	3
MAN5055	Management Processes	3
MAN5105	Strategic Human Resources Development	3
MAN5135	Managerial Finance: Use and Analysis	3
Total MSM Core Component		12
<u>Contingency Planning and Risk Management Track</u>		
MAN6510	Contingency Planning and Risk Assessment	3
MAN6520	Business Impact Assessment and Analysis	3

MAN6350	Labor Relations, Negotiations, and Legal Issues in Human Resources	3
MAN6330	Compensation and Benefits	3
MAN6420	Strategic Recruitment, Selection, and Retention	3
MAN6440	Strategies of Human Resources	3
Total Concentration Component		18
Total Semester Hours for Graduation		30

MEANS OF EVALUATING STUDENT ACHIEVEMENT

Achievement of course objectives will be measured by examinations, projects, and other measurements deemed appropriate by the professor and/or Graduate Program Committee. Achievement of program objectives will be measured by successful completion of a comprehensive examination, and the Professional Portfolio.

ESTIMATED DEGREE COMPLETION TIME

A full-time student may complete the MSM program within four terms.

COURSE DESCRIPTIONS

MASTER OF BUSINESS ADMINISTRATION COURSES

- ACG5025 Financial Accounting for Managers 3 credits**
A study of accounting concepts and required standards for the presentation of financial information. The course provides the student with the basis of income, valuation of assets, as well as the uses and limitations of financial statements.
- ACG6000 Accounting Trends and Techniques 3 credits**
This course is an Accounting Industry Special Topics survey course. The course focuses on trends and techniques in the accounting industry. The course specifically addresses current specialized industry accounting and auditing issues and techniques. Specific topics addressed may vary from term to term. Prerequisites: ACG3362, ACG4201, and ACG4632 or permission of Program Director.
- ACG6010 Accounting, Tax and Financial Research Techniques 3 credits**
This course is designed to provide a working knowledge of accounting, tax and financial research methodology. The course specifically addresses information gathering related to the accounting, tax, financial industries and the professional and regulatory marketplace within which they operate. Prerequisites: ACG4011, ACG4201, and ACG4632 or permission of Program Director.
- ACG6020 Forensic Accounting 3 credits**
This course provides an in-depth study of forensic accounting and the important elements of fraud examination. The course provides a foundation for developing an effective awareness of the potential for and signs of fraud in financial statements and the financial environment. Prerequisites: ACG3362, ACG4201, and ACG4632 or permission of Program Director.
- ACG6030 International Accounting 3 credits**
This course is designed to provide a working knowledge of major accounting issues unique to multinational business enterprises. The course specifically addresses IASB standards, FASB pronouncements, and tax laws related to international activities. The focus will be on comparative accounting and harmonization, financial accounting and reporting, management accounting and control in foreign operations, and taxation of international activities. Prerequisites: ACG4011, ACG4201, and ACG4632 or permission of Program Director.
- BUL6445 Legal Environment of Business 3 credits**
A comprehensive study of the legal process as it applies to business enterprises. The political environment and the impact of public policy on business are studied and reviewed relevant to integrating public ideologies and expectations of the manager.
- ECO5705 Managerial Economics 3 credits**
A study of economic models used for analyzing data and utilizing the results to improve the managerial decision process. Microeconomics and macroeconomics are reviewed, from the managerial perspective, as tools for enhancing business performance and planning.
- ECO6705 Applied Economics 3 credits**
An advanced study of the application of economic data in planning. Case studies are utilized to demonstrate the practical applications of economics by the executive in all facets of the enterprise. Prerequisites: ECO5705 & QMB/PAD 5305

ECO6710	Economic Development This course includes the process analysis, economic analysis and planning with emphasis on the application of decision-making tools and evaluating the results. An in-depth course on research, analysis, and implementation of the planning process plus concentration on community involvement in economic development.	3 credits
ECO6825	Economic Impact of Global Electronic Commerce A wide-ranging study of why innovation is the key variable in the international network economy. An interdisciplinary course, addressing the economic problems created by Internet commerce. Portions of the study also cover information technology hardware, banking, finance, and the baffling problem of how to price services in a distributed international environment.	3 credits
ENG5210	Professional Writing This course focuses on internal and external communication strategies needed in professional contexts. Emphasis will be placed on audience analysis, examination, revision, and creation of documents.	3 credits
FIN6406	Financial Analysis for Management Corporate financial analysis and control of capital. This course develops decision making skills in the areas of projecting, securing, and control of long-term assets and funding, including analysis of the cost of capital. Prerequisite: ACG5025.	3 credits
FIN6500	Banking Principles & Theory A review of the concepts of banking principles and theory. This course offers an in-depth analysis of theory and principles related to retail, business, and lending relations in banking today.	3 credits
FIN6605	International Financial Management A course in the current practices of international business finance. Key areas of study include multi-national business finance, the impact of monetary exchange rates, international money markets, foreign investment, economic systems, and import-export financing. Prerequisite: FIN6406.	3 credits
FIN6816	Investment Management In-depth study of marketable securities investment, including stock and bond markets, security price movements, portfolio selection, risk analysis of alternative investments, and current trends in the investment community.	3 credits
GEB5226	Research Methods A study of the philosophy and methodology of conducting graduate research and reporting. Areas of study include primary and secondary data collection, on-line search methods, and the analysis and compilation of conclusions for decision making. A final research paper will focus on the student's area of concentration. This course must be taken during a student's first or second semester.	3 credits
GEB6007	Seminar in Business Intelligence A seminar in business intelligence, utilizing contemporary texts and the Internet as the primary vehicles to explore economic espionage and the methods used to defend an organization's secrets. After learning to distinguish between legal intelligence gathering and illegal spying, students will undertake real-life assignments to gather competitive intelligence on domestic and foreign corporations and use it to develop competitive strategies.	3 credits

- GEB6376 Professional Ethics, Social Responsibility, and Diversity 3 credits**
A study of the establishment and management of organizational standards for ethics, social responsibility, and cultural diversity. Case studies will augment the instruction of societal and legal requirements for responsible corporate behavior. The student is required to complete and document a community service project or field research project during the term of study.
- GEB6600 Global Environment and Latin America 3 credits**
This course provides a survey of international business with concentration on Latin America. This includes the global impact of Latin America on world markets coupled with business opportunities resulting from this economic growth. Topics include concepts of international economics, marketing, the effects of currency; the development of forecasting techniques, and analytical process controls.
- GEB6801/3 Directed Study in Business Administration Variable credit**
An advanced directed study in an area of business that is of particular interest to the student, culminating in a significant contextual essay on the topic of study. The study will be conducted under the supervision of a graduate faculty member, who will specify readings, direct and evaluate the student's study activities and assess the accomplishment of the course objectives. This course may be taken for 1, 2, or 3 credits, but must be completed within one term. Prerequisites: Advanced graduate standing and permission of faculty advisor.
- GEB6895 Strategic Business Management 3 credits**
An integrative capstone course of study of the formulation and implementation of organizational strategy and policy by the chief executive. The course utilizes case studies to simulate actual business conditions and requires students to exercise advanced planning concepts to achieve the organization's objectives. Prerequisites: BUL6445, ECO6705, FIN6406, GEB5226, GEB6376, MAN6107, MAN6601, MKT6816.
- GEB/MAN 6903/6 Directed Research Project 3 or 6 credits**
An advanced directed research project in an area of business or management that is of particular interest to the student. The research project will be conducted under the supervision of a faculty member. This course may be taken for 3 or 6 credits, but must be completed within one term. Prerequisites: Advanced graduate standing and permission of faculty advisor
- GEB6999 MBA Comprehensive Examination 0 credits**
A non-credit requirement to pass the Master of Business Administration Comprehensive Examination after completion of the Business Core courses and as a qualifying condition for graduation. GEB6999 is not a course of study, but is an examination that is listed as a course number to assure documentation of successful completion. Prerequisites: BUL6445, ECO6705, FIN6406, GEB5226, GEB6376, GEB6895, MAN6107, MAN6601, MKT6816.
- HSA6010 Public Health Interventions in the 21st Century 3 credits**
This course will focus on the study of basic population structure, composition, trends and their relationship to the delivery of healthcare services, including emergency preparedness and bioterrorism threats. The methods and techniques used by epidemiologists investigating the distribution and causes of diseases are utilized in a holistic approach to principles of disease surveillance, control and prevention.

HSA6020	Comparative Health Policy Access to health care and concern over the quality of care are issues near the top of the national agenda in many industrialized countries, including the United States. This course will study U.S. healthcare policies from a political and economic perspective. It will also explore the tools and mechanisms that have been used to manage cost, care, and the health of populations worldwide.	3 credits
HSA6030	Competitive Advantage: Strategic Planning and Finance in Healthcare This course will explore the principles, techniques, and case study applications of strategic planning and finance in the context of changing environmental, policy, and competitive forces in the health services industry. The course will investigate methods of strategic planning and management of health services organizations, techniques for determining strategies for unique services, integration of strategy, structure, finance and administrative systems.	3 credits
ISM5021	Management Information Systems A study of the analysis and application of information systems. Data, business information and knowledge management, hardware and software tools, and personnel issues are the central management considerations in this course of study. Graduate research skills will be practiced and evaluated through an additional assignment.	3 credits
MAN5055	Management Processes A course of study of the origins and current practices of management. The course includes a foundation in decision making, human resources, motivation, leadership, global management, planning, organizational structure, group behavior, ethics, and organizational culture.	3 credits
MAN6107	Executive Leadership Advanced studies in leadership theory and practice. Leadership models are studied within the context of a variable situational environment, coupled with the individual characteristics of the leader. Prerequisite: MAN5055.	3 credits
MAN6130	Management Communications A study of techniques, documents, processes, and procedures for effective managerial communication. Students will analyze and identify various modes of communication and practice delivery of executive direction and information in the most effective manner. The course will focus on written and oral communication techniques.	3 credits
MAN6245	Managing Organizational Behavior Advanced concepts and practices in organizational behavior and its impact on outcomes are studied in group settings. Intragroup and intergroup behavior dynamics are studied for establishing the most effective approach to managing for optimal organizational results.	3 credits
MAN6311	Management of Human Resources A survey course for line and staff management of human resources in a contemporary organization. The course includes human resource planning, recruitment, selection, training, and employee retention methods. Prerequisite: MAN5055.	3 credits
MAN6601	Global Dimensions of Management A study of the considerations and complexities of managing an organization in a global business arena. International opportunities and threats are studied within the context of the varying roles of international management as impacted by the differing legal, economic, cultural, ethical, and regulatory environments. Prerequisite: MAN5055.	3 credits

MAN6603	Operations Management A study of the theories and applications of operations management in the business enterprise. Topics include production, scheduling, quality control, resource allocation, time management, materials requirements planning, and systems analysis. Prerequisites: MAN5055, QMB5305.	3 credits
MAN6700	Professional Internship A course of study that will afford students the direct real life professional experience in their field of study. The course will require participating students to work a total of one hundred thirty-five (135) hours. The instructor must meet the student's supervisor at least once to discuss student's work objectives and performance.	3 credits
MAN6911	Homeland Security Management An analysis of the structures, motivations, and objectives of homeland security. Includes an in-depth analysis of the management tools available for the proactive defense of the civilian organizations within the United States.	3 credits
MAN6930	Seminar in Management A seminar in management studies applied to relevant and current business topics. Contemporary cases are utilized to apply learning in this highly participative course. Prerequisite: MAN5055 or PAD 5055.	3 credits
MKT5815	Marketing Management A study of the managerial perspective in the business marketing function. Management of marketing issues and critical decision making are stressed in the areas of strategy, advertising, market research, public relations, and selling in domestic and foreign environments.	3 credits
MKT6700	Marketing Research This course explores research applied to planning, analysis, and control marketing with emphasis on consumer needs, market position, competition, and advertising.	3 credits
MKT6816	Strategic Marketing Methods An advanced study of strategic marketing methodology in complex consumer and industrial markets. Case studies of actual marketing problems will augment this study of the critical strategic component of marketing. Prerequisite: MKT5815.	3 credits
MKT6830	International Marketing Advanced study in practices and policies employed in international business, focusing on all marketing issues facing the international manager, including advertising, international monetary payments, cultural differences, staffing, and multi-national promotional strategies. Prerequisite: MKT5815	3 credits
MKT6930	Seminar in Marketing A seminar in marketing studies to develop the application of marketing concepts. Contemporary case studies augment the participatory environment of this course. Prerequisite: MKT5815.	3 credits
QMB5305	Statistics for Management A study of the practical application of statistics to business research and management problems. Students will learn statistical methods employed by executive decision makers, who must sort out and analyze large amounts of data in order to achieve organizational goals.	3 credits

MASTER OF PROFESSIONAL STUDIES COURSES

- EDU5000 Foundations of Education 3 credits**
Students investigate and reflect on the greatest educational theorists from across the centuries and around the world. The focus will be on educational/learning theory, character development and intelligence assessments, the role of society and government in education, as well the role of educators as facilitators of learning.
- EDU5001 Group Theory and Classroom Application 3 credits**
This course explores both the theory and application of group dynamics in the classroom. New developments in theory and research in group dynamics are reviewed. The primary focus of this course is to learn how to make group or collaborative learning effective in the classroom.
- EDU5100 Introduction to Technology Tools and Management 3 credits**
This course is designed to provide instruction on how to implement technology to support teaching methodology and improve learning outcomes. It blends educational theory with skills training, and is designed to teach the technology skills necessary to support the teaching activities in both traditional and distance education environments. A variety of instructional methods will be utilized, based on the use of The Blackboard Learning System™ as a course management system. Methods include reading, skill training, discussion, and best practice forums. The course will place a heavy emphasis on technology skill building, with students spending a majority of the time working on projects that will enhance the delivery and organization of their courses.
- EDU6000 Multicultural Education 3 credits**
In this course, students critically evaluate education practices from the perspective of social justice, education equity and dedication to creating a multicultural educational experience. Emphasis is placed on the exploration of a learning environment in which students of all cultural and ethnic backgrounds can maximize their learning potential.
- EDU6001 Comparative Educational Delivery Systems 3 credits**
Educational delivery systems began as a “one size fits all” model. Today our educational models in both primary and secondary educational institutions range from the traditional to blended to online to home schooling. In this course, students will critically evaluate the various American educational delivery systems and review models from other countries.
- EDU6110 Instructional Theories and Techniques for the Adult Learner 3 credits**
A course of study in higher education focusing on the learning modalities of the adult learner. This course is intended to explore the theoretical concepts of teaching methods utilized at the college level. Areas covered include integration of learning theories, classroom techniques, syllabus and curriculum development, online course management, and utilization of information resources and instructional technologies.
- EDU6120 Theory and Methods of Online Instruction for Adult Learners 3 credits**
A course of study that examines the theory and practice of online course delivery with a special emphasis on the adult learner. The course focuses on the learning modalities of the adult learner in the online environment. Areas covered include adult learning theory, course development, and online delivery techniques consistent with adult learning principles, technology for online delivery, and special topics pertaining to the effective delivery of online courses.

- EDU6130 Educational Leadership 3 credits**
This course is designed to assist in the development of administrative leadership skills. The focus is on the knowledge and application of leadership skills necessary in an effective educational institution. Areas covered include situational leadership, organizational climate and culture, individual and group motivation, shared decision making and team building.
- GEB5226 Research Methods 3 credits**
A study of the philosophy and methodology of conducting graduate research and reporting. Areas of study include primary and secondary data collection, online search methods, and the analysis and compilation of conclusions for decision making. A final research paper will focus on the student's area of concentration. This course must be taken during a student's first or second term.
- GEB6376 Professional Ethics, Social Responsibility and Diversity 3 credits**
A study of the establishment and management of organizational standards for ethics, social responsibility, and cultural diversity. Case studies will augment the instruction of societal and legal requirements for responsible corporate behavior. The student is required to complete and document a community service project or field research project during the term of study.
- IDS6001 Professional Portfolio 0 credits**
In this course students will produce an electronic professional portfolio that demonstrates their mastery of Hodges University's core competencies of Critical Thinking, Effective Communications, Initiative, Leadership Ability, and Research Ability. Students are required to take this course their last semester with the University and must successfully complete this course in order to graduate.
- IDS6400 Foundations of Professional Leadership 3 credits**
This course provides a comprehensive study of major leadership theories and research approaches. Students will focus on identifying and assessing their own leadership philosophy and then analyze the relationship between their philosophy and selective theories of leadership.
- IDS6405 Leadership and Organizational Culture 3 credits**
The focus of this course is on the operation of organizations as a people centered social system. Through research and discussions, students analyze professional operations, structures, power, culture, politics and group dynamics. Emphasis is on motivations, behavior and styles of leaders and their impact on an organization.
- IDS6410 Interpersonal Communication and Leadership 3 credits**
This course centers on the connection between relationship building and leader effectiveness. Relevant issues drawn from communication theory, psychology, and sociology are explored as they relate to interpersonal leadership styles. Students also examine their own assumptions and beliefs about the impact of their communication style on others.
- IDS6415 Transformational Leadership and Organizational Development 3 credits**
The focus of this course is on the role of leaders in motivating followers and facilitating change within an organization. Students will discover how to assess human potential and maximize employee involvement. Emphasis is on building learning organizations that help people understand, accept and become empowered through organizational change and development. Using case studies, students learn to identify the conditions for when, how and where transformational leadership is most needed.

IDS6420	Gender and Leadership This course examines factors that influence public acceptance of women in leadership positions. Students will review academic literature and empirical research to develop insight and skills for effective leadership. The focus of this course will be on gender differences in leadership styles and social and structural barriers to women assuming leadership positions in their communities, government, profit and non-profit organizations.	3 credits
IDS6425	Global Leadership The purpose of this course is to research and analyze challenging cross-cultural situations. Students will examine different customs, norms and expectations produced by inter-cultural encounters. Special attention will be given to developing effective leadership strategies for enhancing understanding among people of vastly different cultural backgrounds.	3 credits
IDS6903	Directed Study Research Project An advanced directed research project in an area that is of particular interest to the student. The research project will be conducted under the supervision of a faculty member. This course must be completed within one term. Prerequisites: Advanced graduate standing and permission of faculty advisor.	3 credits
MAN5055	Management Processes A course of study of the origins and current practices of management. The course includes a foundation in decision making, human resources, motivation, leadership, global management, planning, organizational structure, group behavior, ethics and organizational culture.	3 credits
PSY5200 MCJ 5200	Special Topics in Crime and Social Morality This course is an in depth exploration of the relationship between deviant behavior and social norms, values and mores. The course examines the immoral, unethical and criminal behavior which is in conflict with social expectations.	3 credits
PSY6201 MCJ 6201	Stress Management and Behavior This course is an in depth analysis of the physical, emotional and psychological effects of stress on individuals, organizations and institutions. In addition, effective management techniques for stress induced situations are extensively explored.	3 credits
MCJ 5202	Special Topics This course may be taken in lieu of MCJ5200 when a criminal justice topic relating to the student's education objective is desired. Prerequisite: Permission of the Program Chair.	3 credits
PSY6300	Psychosocial Theory and Applications In this course, students learn to relate social conditions to mental health. Students explore how societies and individuals within those societies impact human development, both from a positive perspective and a negative perspective. Examples in history that demonstrate how powerful influences take control over a society's perception of right and wrong will be studied. Students will learn applications that can be developed by a society to ensure a healthy and perpetual existence.	3 credits
PSY6301	Substance Abuse Theory and Prevention Methodology This course will focus on the history of substance abuse in our society, how it is defined, perceived, and accommodated. The various methods of prevention will be examined from a medical, psychological and social perspective. Student will conduct a case study using one of these methods to determine the efficacy of each.	3 credits

PSY6302 Human Sexuality 3 credits
This course presents an investigation of sexuality within the larger context of the human experience. Emphasis is placed on the study of human sexual development, dimensions of sexual behavior, sex education, health issues, sexually transmitted diseases, and ethical and legal aspects of sexuality.

PSY6303 Gender and Society 3 credits
In this course, students will review a wide variety of theoretical positions about the meaning and origins of gender and examine the role of gender in our most central social institutions: relationships, work, school, media, and culture.

MASTER OF PUBLIC ADMINISTRATION COURSES

PAD5021 Management Information Technology 3 credits
A study of the analysis and application of information systems. Data, business information and knowledge management, hardware and software tools, and personnel issues are the central management considerations in this course of study. Graduate research skills will be practiced and evaluated through an additional assignment.

PAD5055 Management Processes 3 credits
A course of study of the origins and current practices of management. The course includes a foundation in decision making, human resources, motivation, leadership, global management, planning, organizational structure, group behavior, ethics, and organizational culture.

PAD5226 Research Methods 3 credit
A study of the philosophy and methodology of conducting graduate research and reporting. Areas of study include primary and secondary data collection, on-line search methods, and the analysis and compilation of conclusions for decision making. A final research paper will focus on the student's area of concentration. This course must be taken during a student's first or second semester.

PAD5305 Statistics for Management 3 credits
A study of the practical application of statistics to business and governmental research and management problems. Students will learn statistical methods employed by executive decision makers, who must sort out and analyze large amounts of data in order to achieve organizational goals.

PAD6000 Public Administration: Function and Structure 3 credits
An overview of the public administration sector and its impact on the community, the nation, and the individual. The course examines the function of various governmental units and their interrelationships with other governmental branches and units, the constituencies, and special interest groups.

PAD6050 Management of American, State, and Local Government 3 credits
Examination of administrative, fiscal, legal, and structural factors that affect government. This course identifies the source of political power in governmental agencies. An in-depth analysis of structure, policy, and procedures that causes government to function.

PAD6107 Executive Leadership 3 credits
Advanced studies in leadership theory and practice. Leadership models are studied within the context of a variable situational environment, coupled with the individual characteristics of the leader. Prerequisite: PAD5055.

- PAD6250 Administrative Law and Regulatory Processes 3 credits**
This course covers the fundamental concepts of administrative law including enabling statutes, the Administrative Procedures Act, rule-making, investigatory power, enforcement, and adjudication functions.
- PAD6260 Constitutional Law and Public Administration 3 credits**
This course provides essential coverage of government powers, structures, and civil liberties provided for in the United States Constitution and interpretative cases, and their effects on the laws, rules, and procedures of governmental entities and agencies.
- PAD6270 Labor Relations, Negotiations, and Contract Issues in Human Resources 3 credits**
This course includes the fundamental concepts of hiring, equal employment opportunity, wages, occupational safety, health care, pensions, training, and labor contract relations. The focus is on human resources management with some discussion on human resources information systems. Emphasis is placed on applying employment laws to develop programs that enable organizations to be proactive in meeting both organizational and work force needs while at the same time, resolving workplace disputes, negotiation, preventing litigation, and implementing and administering human resources policies and practices in compliance with applicable laws.
- PAD6311 Management of Human Resources 3 credits**
A survey course for line and staff management of human resources in a contemporary organization. The course includes human resource planning, recruitment, selection, training, and employee retention methods. Prerequisite: PAD5055.
- PAD6376 Professional Ethics, Social Responsibility, and Diversity 3 credits**
A study of the establishment and management of organizational standards for ethics, social responsibility, and cultural diversity. Case studies will augment the instruction of societal and legal requirements for responsible organizational behavior. The student is required to complete and document a community service project or field research project during the term of study.
- PAD6406 Governmental Budgeting and Finance 3 credits**
A survey of finance conventions and budgetary processes for public sector organizations. The course will cover sources of public funds and how the legislative process allocates financial resources to various agencies via a budgeting process. Prerequisite: PAD6000
- PAD6710 Economic Development 3 credits**
This course includes the process analysis, economic analysis and planning with emphasis on the application of decision-making tools and evaluating the results. An in-depth course on research, analysis, and implementation of the planning process plus concentration on community involvement in economic development.
- PAD6895 Public Policy Analysis 3 credits**
A course of study that evaluates the best alternatives in establishing public policy in view of the often conflicting forces affected by policy. Students will study case applications in the establishment of public policy and exercise their own skills in proposing simulated responses to needs for new policy. Prerequisites: PAD6000, PAD6406.

- PAD6911 Homeland Security Management 3 credits**
An analysis of the structures, motivations, and objectives of homeland security. Includes an in-depth analysis of the management tools available for the proactive defense of the civilian organizations within the United States.
- PAD6950 Public Administration Capstone Project 3 credits**
This seminar course is the capstone assessment course and requires the Public Administration student to integrate knowledge gained from all program courses. This is accomplished through a series of case studies and papers provide the student an opportunity to analyze concepts, explain principles, and demonstrate a sound understanding of how the administration of government impacts business, non-profit, the American public, and society in general. Prerequisite: PAD6895
- PAD6999 MPA Comprehensive Examination 0 credits**
A non-credit requirement to pass the Master of Public Administration Comprehensive Examination after completion of the Public Administration courses and as a qualifying condition for graduation. PAD6999 is not a course of study, but is an examination that is listed as a course number to assure documentation of successful completion. Prerequisite: Completion of all courses required for graduation.

MASTER OF INFORMATION SYSTEMS MANAGEMENT COURSES

MASTER OF SCIENCE IN COMPUTER INFORMATION TECHNOLOGY COURSES

Please note: All computer courses require a Lab Fee.

- CIT5050-1 Directed Study 3 credits**
CIT6050-1 The Directed Study is intended to allow the student to pursue a specific topic in detail. The topic may be one that is not offered in a regularly scheduled course, or it may be an alternative to a regularly scheduled course. The 5000-level Directed Study (5050 and 5051) is for introductory-level graduate work, and may be taken in lieu of a core course with the approval of the Graduate Program Director. The 6000-level Directed Study (6050 and 6051) is for advanced work, and may be taken in lieu of a concentration course with the approval of the Graduate Program Director. Prerequisite: Will depend on the specific topic; approval of the Graduate Program Director is required.
- CIT5311 Web Applications 3 credits**
This course provides students with familiarity and hands-on experience in developing web applications. Students carry out projects that expose them to languages and key components of Web applications such as server-side and client-side scripting, cookies, and database connectivity. Subject to approval by the instructor, students have latitude to select topics of interest and to develop group projects with their chosen applications. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: CIT2310.
- CIT5411 Advanced Database Management Systems 3 credits**
This course presents in detail the concepts of advanced database design and implementation, transaction management and concurrency control, distributed DBMS, database warehousing, and object-oriented databases. Special emphasis is placed on a project implementation approach to reinforce selected topics. Advanced topics in SQL are also examined. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: CIT2410.

- CIT5521 Systems Analysis & Solution Architectures 3 credits**
This course covers the analysis of business requirements and the definition of technical solutions architectures. Issues to be covered include security, performance, maintenance, extensibility, integration into existing applications, data models, and conceptual and logical design. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: CIT2510 or ISM5021.
- CIT5531 Software Engineering 3 credits**
This course addresses the classic issues of software engineering, including hardware considerations, system life cycle, project planning, metrics for software productivity and quality, requirements analysis, design, and language selection. Alternative approaches, including object-oriented, prototyping, data flow, and data structures are compared. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: CIT5521.
- CIT6060 Special Topics 3 credits**
CIT6061 Special Topics is intended to allow specific topics that are not a part of the regularly scheduled courses to be offered on a “one time” basis. May be taken in lieu of a concentration course with the approval of the Graduate Program Director. Prerequisite: Will depend on the specific project. Approval of the Graduate Program Director is required.
- CIT6130 Legal & Ethical Aspects of Computing 3 credits**
This course presents an overview of legal, ethical, and moral considerations for computing professionals. Topics to be covered include liability and ethical considerations in systems development; intellectual property rights; privacy and security considerations; risk management; computer and Internet crime; and professionalism and professional certifications and licensing. Prerequisite: ISM5021.
- CIT6211 Managing Voice Data & the Mobile Network 3 credits**
In this course students will examine key technical and technical management issues in the management of business telecommunications and networking. The emphasis will be on the new technologies that are quickly redefining the “network” and creating new challenges for technical and business management. These issues and technologies will include: evolving telecommunications business applications; convergence of telecommunications industry with computer and entertainment industries – computer, PDA and cell phone; digital telephony and Voice over IP; emerging telecommunications technologies such as Bluetooth, 3G and beyond wireless systems; telecommunications technology and the virtual organization; multi-media telecommunications and networking. Prerequisite: CIT5200 or CIT5521 or equivalent experience and Permission of Program Director/Professor.
- CIT6221 Designing the Secure Network 3 credits**
Computer networks have become a critical component of the daily operations of most businesses, government entities, and other institutions. As the boundaries between private networks and the public Internet have become blurred, the level of threat to confidentiality, privacy and information security has escalated dramatically. In this course, students will learn the “best practice” network security design principles and how they may be applied to create a more secure network environment for a modern global enterprise. Prerequisite: ISM5130 or ISM5200 or CIT5521.

- CIT6290** **Network Technology Seminar** **3 credits**
This course will allow the student to develop a minimum level of expertise in a specific area of advanced networking. Lecture and discussion of current topics will be combined with significant student research. The focus of this course will change each time it is offered. This will allow the course to remain current with developments in computer networking technologies. Prerequisite: CIT6221.
- CIT6531** **Object-Oriented Systems Development** **3 credits**
This course presents the object-oriented (OO) paradigm and its application throughout the software and systems life cycles. While it is expected that the student will become proficient in a particular OO language, it is the more general concepts of OO analysis (OOA), OO design (OOD), and OO programming (OOP) that will be of primary emphasis. The student will also be expected to be able to read and comprehend recently published literature in the area. Prerequisite: CIT5531.
- CIT6540** **Software Systems Security & Privacy** **3 credits**
This course considers computer security and privacy from a software systems point of view. Specific topics to be covered include assurance, confidentiality, integrity, risk, and vulnerability, along with existing technologies that can be used to make software systems more secure. Both theory and practice will be considered. Security and privacy legislation will also be covered. Prerequisite: CIT5521 or ISM5130 or ISM6128.
- CIT6590** **Software Systems Development Seminar** **3 credits**
An examination of current literature and the current state of the art of software systems development. Prerequisites: CIT5531.
- CIT6900** **Project** **3 credits**
A research effort/feasibility study to determine a potential solution to a problem of interest in the computer/business community, accompanied by a solution. The project may be research-oriented, in which the primary emphasis is on researching current/state of the art practices, accompanied by a proof-of-concept system. Alternatively, the project may be more solution-oriented, in which the primary emphasis is on constructing a more detailed working/prototype solution. Specific topics require approval of the School of Technology (SOT) Graduate Committee, supervision by an SOT Graduate Faculty Advisor, and a second reader (or co-advisor) from the SOT Faculty. A written report is required, as is an oral presentation to the MCT Graduate Program Committee. This course is normally taken during one of the student's final two terms. Corequisite: completion of MCT Concentration.
- CIT6910** **Thesis** **3 credits**
A continuation of CIT 6900. While the thesis may vary widely in scope, the typical thesis will consist of an in-depth research effort and an implementation of a detailed working/prototype solution (i.e., it will encompass both types of projects from CIT6900). Specific topics require approval of the School of Technology (SOT) Graduate Committee, supervision by an SOT Graduate Faculty Advisor, and a second reader (or co-advisor) from the SOT Faculty. A written report is required, as is an oral presentation to the MCT Graduate Program Committee. This course is normally taken during the student's final term. Prerequisite: CIT6900.

- ISM5021 Management Information Systems 3 credits**
A study of the analysis and application of information systems. Data, business information and knowledge management, hardware and software tools, and personnel issues are the central management considerations in this course of study. Graduate research skills will be practiced and evaluated through an additional assignment.
- ISM5050/1 Directed Study 3 credits**
ISM6050/1 The Directed Study is intended to allow the student to pursue a specific topic in detail. The topic may be one that is not offered in a regularly scheduled course, or it may be an alternative to a regularly scheduled course. The 5000-level Directed Study (5050 and 5051) is for introductory-level graduate work, and may be taken in lieu of a core course with the approval of the Graduate Program Director. The 6000-level Directed Study (6050 and 6051) is for advanced work, and may be taken in lieu of a concentration course with the approval of the Graduate Program Director. Prerequisite: Will depend on the specific topic; approval of the Graduate Program Director is required.
- ISM5110 Project Management 3 credits**
Managing projects within an organizational context, including the processes related to initiating, planning, executing, controlling, reporting, and closing a project; project integration, scope, time, cost, quality control, and risk management; managing the changes in organizations resulting from introducing or revising information systems; identifying project champions, working with user teams, training, and documentation; the change management role of the IT specialist. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: ISM5021 or equivalent.
- ISM5115 Advanced Project Management 3 credits**
This course will focus on some of the more advanced and challenging topics in project management including: procurement, human resource management, risk identification and mitigation, and managing outsourced projects and off-shore staff. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: ISM5110.
- ISM5120 IT Policy & Strategy 3 credits**
This course focuses on the activities of organizations in relation to the use, creation, and exploitation of technology, and considers many key theories and tools that CIO's may use. It examines well-established information technologies as well as emerging technologies and the evolving reality of technological innovation in leading companies and industries by the use of case studies. Prerequisite: ISM5021 or equivalent.
- ISM5130 Computer Forensics 3 credits**
This course introduces students to the field of digital forensics. It involves the study of the prevention, detection, apprehension, and prosecution of cybersecurity violators and cybercriminals. Students will examine the various categories and manifestations of cybercrime. They will also consider the issues involved in using the computer for illegal or inappropriate activities in a business environment. After gaining an increased understanding of the problems, students will be introduced to some of the "best practice" techniques used by corporate security personnel and law enforcement officials to discover and investigate possible cybercrime activity. Finally, students will learn about some of the specific technical and legal issues involved in the collection, and preservation of digital evidence so that it can be used in a court of law or to support corporate decisions.

- ISM5200 Principles of Operating Systems 3 credits**
This course provides an introduction to computer and network operating systems. Students will examine the role operating systems play in modern computer-based business information systems. Students will learn how the operating system contributes to the over-all development of an information system that can provide a competitive advantage in today's fast-paced business environment. The course will focus on the components that constitute operating systems and on the facilities and services provided by these systems. Students will be taught how to differentiate between the various types of operating systems and to select an appropriate system to support an organization's information-processing needs. Topics to be covered include resource allocation and scheduling, file management, storage management, and hardware support for operating systems. The course includes a survey of currently available operating systems such as Windows Server 2003, Linux/UNIX, Novell, as well as the current situation for mainframe and mid-level systems.
- ISM5310 E-Commerce 3 credits**
Broad survey of theory and practices of conducting business over the Internet and World Wide Web. Topics include electronic commerce fundamentals, web auctions, supporting infrastructure, software selection, security, electronic payment, business strategies, legal, taxation, and ethical issues. Graduate research skills will be practiced and evaluated through an additional assignment. Prerequisite: ISM5021 or equivalent.
- ISM6060 Special Topics 3 credits**
ISM6061 Special Topics is intended to allow specific topics that are not a part of the regularly scheduled courses to be offered on a "one time" basis. May be taken in lieu of a concentration course with the approval of the Graduate Program Director. Prerequisite: Will depend on the specific project. Approval of the Graduate Program Director is required.
- ISM6122 Integrating the Enterprise 3 credits**
This course presents IT integration from a non-technical department head point of view, with the primary emphasis being the role of information systems in transforming organizations and industries. An integrated view of the organization from an external and internal perspective is presented. IT's internal role in integrating the enterprise through a cohesive set of business processes and functional applications to meet business needs is explored, as is enterprise resource planning and enterprise functionality. Collaborative systems and consideration of external relations with suppliers, outsourcers, and customers are also covered. This course will help the student to learn what to build rather than how to build it, and how to communicate technical ideas to non-technical users and managers. Prerequisite: ISM5120.
- ISM6124 Integrating the IT Function 3 credits**
This course presents IT integration from the CIO's perspective, with the primary emphasis being the tactical/operational responsibilities and roles of the CIO. Topics include governance considerations that link the IT-business organizations, current/emerging issues in creating and coordinating the key activities necessary to manage the tactical and strategic operations of the IT function, and coordinating skills and organizational IT infrastructure. Prerequisite: ISM5120.
- ISM6126 Integrating Information Technologies 3 credits**
This course presents IT integration from the IT department's perspective, emphasizing the development of an integrated technical architecture (hardware, software, networks, and data) to serve organizational needs in a rapidly changing competitive and technological environment. Topics include technologies for intra- and inter-organizational systems and current / emerging architectures and technologies with an emphasis on methods that create vertical (within a technology type) and horizontal (across technology types) integration. Prerequisite: ISM5120.

ISM6128 Integrating & Securing the Infrastructure 3 credits
This course considers infrastructure strategies with an emphasis on agile (reusable and adaptive) infrastructures geared toward the electronic business (e-Business). Securing the infrastructure, and the business information that it entails, will be explored from a management perspective. Prerequisite: ISM5120.

ISM6190 Issues and Trends in IT Management 3 credits
This course will examine current issues, trends, and developments that are likely to impact the management of information technology in today's business environment in both the short and long term. It also serves as a capstone course for the Master of Information Systems Management Program, bringing together the concepts and cumulative body of knowledge from the core, the integration component, and the concentration component. Specific emphasis will be given to the areas of critical thinking, effective communication, research ability, leadership ability, and initiative in regards to maximizing the competitive advantage of information technology in the enterprise. This course is normally taken during the student's final term. Prerequisite: Completion of MIS core and integration component. Corequisite: Completion of concentration component.

MASTER OF SCIENCE IN CRIMINAL JUSTICE COURSES

GEB5226 Research Methods 3 credits
A study of the philosophy and methodology of conducting graduate research and reporting. Areas of study include primary and secondary data collection, online search methods, and the analysis and compilation of conclusions for decision making. A final research paper will focus on the student's area of concentration. This course must be taken during a student's first or second term.

MAN5055 Management Processes 3 credits
A course of study of the origins and current practices of management. The course includes a foundation in decision making, human resources, motivation, leadership, global management, planning, organizational structure, group behavior, ethics, and organizational culture.

MCJ5140 Statistical & Computer Applications 3 credits
An examination of specific methods in the development of application of statistical data in criminal justice research and program development utilizing computer and Internet resources.

MCJ5200 Special Topics in Crime and Social Morality 3 credits
PSY5200
This course is an in depth exploration of the relationship between deviant behavior and social norms, values and mores. The course examines the immoral, unethical and criminal behavior which is in conflict with social expectations.

MCJ5202 Special Topics 3 credits
This course may be taken in lieu of MCJ5200 when a criminal justice topic relating to the student's education objective is desired. Prerequisite: Permission of the Program Chair.

MCJ5250 Criminal Justice Theory 3 credits
A study of classical and neo-classical theories of criminality and the interrelation with socioeconomic, political, behavioral and medical issues.

MCJ6000	Seminar Criminal Justice Organization and Administration	3 credits
	Application of organizational and administrative principles in law enforcement, court and correctional settings, with an assessment of trends and theories emphasizing either law enforcement, the courts, or corrections.	
MCJ6010	Seminar in Current Trends in Criminal Justice	3 credits
	This course examines the problems associated with incorporating new federal laws that mandate changes in the criminal justice system. Law enforcement, Courts and Corrections will be examined for compliance and their associative problems.	
MCJ6011 PSY6011	Studies in Criminal Deviance	3 credits
	A study of criminal behavior in contemporary investigation regarding “Serial Homicide” and related sociological and psychological behavior.	
MCJ6015 PSY6015	Psychological Patterns and Criminal Identification	3 credits
	This course is designed to provide the sworn and civilian staff within the field of criminal justice a broad based understanding of forensic methods associated with the identification and labeling of specific maladaptive behavior. Psychological patterns of behavior and the range of classifications of that behavior, which fall within the categories within the DSM-III-R will also be examined.	
MCJ6041 PSY6041	Psychological Disorders	3 credits
	An analysis of the specific medical and psychological characteristics of the behavior and study of diagnostic and evaluation/treatment methods.	
MCJ6201 PSY6201	Stress Management and Behavior	3 credits
	This course is an in depth analysis of the physical, emotional and psychological effects of stress on individuals, organizations and institutions. In addition, effective management techniques for stress induced situations are extensively explored.	
MCJ6301	Constitutional/Statutory Policies Analysis in Criminal Justice Agencies	3 credits
	A study of the specific guidelines which govern Criminal Justice agencies and the specific duties of personnel in such agencies.	
MCJ6304	Correctional Institutions: Organization, Law and Policy	3 credits
	A study of penal organizations, the federal and state laws that govern correctional facilities, and standard policies and procedures of penal institutions.	
MCJ6307 PSY6307	Forensic Psychology	3 credits
	A course designed to introduce the student to the field of forensic psychology. Forensic psychology, as a field, is in a state of formulation and development. The coverage of this course will be broad and inclusive.	
MCJ6309	Ethics in the Criminal Justice System	3 credits
	Legal and ethical issues in Criminal Justice are designed to address behaviors, which are fundamental to the orderly operation of a criminal justice agency. Cultural and legal points of reference will be examined in an attempt to determine the best methods of resolving any conflicts between the two.	
MCJ6315	Theoretical Criminology	3 credits
	This course provides a coherent overview of theories in their historic and social context as they relate to the criminal justice profession.	

- MCJ6400 Research & Thesis in Criminal Justice 6 credits**
A formal thesis including research and statistical applications. Topics require approval of the Criminal Justice Graduate Committee and supervision of a faculty mentor. The Thesis is reviewed by the Criminal Justice Graduate Committee and then defended by the student to the Criminal Justice Graduate Committee. This course is taken during the student's final term.
- MCJ6401 Investigative and Intelligence Analysis: Theory and Practice 3 credits**
The purpose of this course is to provide the student with an understanding of intelligence analysis capabilities and resources that have taken a new and critical meaning since the terrorist attacks on September 11, 2001. Recent policy changes of the national intelligence system have mandated changes to appreciate, understand and utilize intelligence analysis throughout all levels of the criminal justice system. Developing an analytical assessment process will give students the skills to perform an analytical assessment of the potential threat to a critical infrastructure and recommend implementation to local authorities.
- MCJ6402 Homeland Security 3 credits**
This course is designed to be a continuation of the investigative and intelligence process to establish a basis for an understanding of state and local criminal justice agencies' role in combating terrorism since the creation of the Department of Homeland Security. This course brings together the study of intelligence and terrorism to provide a comprehensive understanding of the government's responsibilities and capabilities to deter, prevent and respond to acts of terrorism. Emphasis is placed on local agencies' capabilities and the changing strategies and security challenges in today's environment.
- MCJ6404 Domestic Terrorism 3 credits**
This course will define the sources of threats to the Homeland and discuss recent patterns of domestic terrorism and related violence in the United States. This course will address potential threats of violence against the nation and its citizens. Students will evaluate the likelihood of terrorists employing weapons of mass destruction, as well as newer threats such as cyber attack. The possibility of terrorist surprise attacks will be examined from a risk management perspective.
- MCJ6405 The Structure of Antiterrorism and Counterterrorism Programs 3 credits**
This course will explore the history and the current structure of anti and counter terrorism programs and organizations. Issues and challenges to effective policy coordination raised by the requirement to defend the Homeland will be examined. Specific provision of antiterrorism programs at the federal, state, and local level will be examined to determine if the programs are working. U.S. policy following a domestic or international terrorist attack will be critically analyzed.
- MCJ6406 The Legal Context of Antiterrorism Programs 3 credits**
This course will examine the use of laws, policies, and regulations to reduce the hazard of domestic and international terrorism. The intersection of homeland security with traditional constitutional rights, legal protections and civil liberties will be examined. Students will be asked to critically assess the policy interplay between the burgeoning requirements of homeland security such as the Patriot Act with the maintenance of traditional freedoms. Theoretical perspectives involving international treaties, conventions, and laws to reduce terrorism will be examined.

MCJ6503 Global Perspectives of Terrorism 3 credits
The study of theoretical frameworks about the causes and roots of terrorism will provide a better understanding of why and how terrorists select modes, methods, and targets. Known domestic and international groups will be examined to understand the organization, structure, and leadership of terrorist organizations.

MASTER OF SCIENCE IN HEALTH ADMINISTRATION COURSES

HSA5111 United States Healthcare System 3 credits
This course provides an overview of the U.S. healthcare system, identifying the various stakeholders. Particular emphasis is placed on the effects the political, social, economic and technological environments have on the U.S. healthcare system. The role of the three branches and three levels of government are introduced. Graduate research skills will be practiced and evaluated through additional assignments.

MAN5055 Management Processes 3 credits
A course of study of the origins and current practices of management. The course includes a foundation in decision making, human resources, motivation, leadership, global management, planning, organizational structure, group behavior, ethics and organizational culture.

QMB5305 Statistics for Managers 3 credits
A study of the practical application of statistics to business research and management problems. Students will learn statistical methods employed by executive decision makers, who must sort out and analyze large amounts of data in order to achieve organizational goals.

HSA5125 Financial Management in Health Services 3 credits
This course is devoted to the practical aspects of finance in healthcare, examination of recent developments in financial management of healthcare organizations and application of financial management techniques to specific problems facing healthcare managers. Topics include: 1) healthcare economics; 2) healthcare financial statements; and 3) healthcare budgeting. Graduate research skills will be practiced and evaluated through additional assignments.

HSA5130 Healthcare Regulation and the Law 3 credits
This course covers a broad range of topics affected by law and regulation, ranging from patient rights to the “business” of healthcare. Various regulatory agencies, both federal and state, are examined. The Joint Commission of Healthcare Organizations (JCAHO), accreditation process is also examined. A variety of legal issues, including, but not limited to, confidentiality, malpractice, informed consent, corporate medicine and risk management are covered. Graduate research skills will be practiced and evaluated through additional assignments.

IDS5226 Research Methods 3 credits
A study of the philosophy and methodology of conducting graduate research and reporting. Areas of study include primary and secondary data collection, on-line search methods, and the analysis and compilation of conclusions for decision making. A final research paper will focus on the student’s area of concentration. This course must be taken during the student’s first or second semester.

- IDS6376 Professional Ethics, Social Responsibility, and Diversity 3 credits**
A study of the establishment and management of organizational standards for ethics, social responsibility, and cultural diversity. Case studies will augment the instruction of societal and legal requirements for responsible corporate behavior. The student is required to complete and document a community service project or field research project during the term of Study.
- HSA6010 Public Health Interventions in the 21st Century 3 credits**
This course will focus on the study of basic population structure, composition, trends and their relationship to the delivery of healthcare services, including emergency preparedness and bioterrorism threats. The methods and techniques used by epidemiologists investigating the distribution and causes of diseases are utilized in a holistic approach to principles of disease surveillance, control and prevention.
- HSA6020 Comparative Health Policy 3 credits**
This course will study U.S. healthcare policies from a political and economic perspective and explore the tools and mechanisms that have been used to manage cost, care, and the health of populations worldwide. Why many western countries other than the U.S. have better healthcare outcomes and less expensive systems will be investigated.
- HSA6030 Strategic Planning and Finance in Healthcare 3 credits**
This course will explore the principles, techniques, and case study applications of strategic planning and finance in the context of changing environmental, policy, and competitive forces in the health services industry. The course will investigate methods of strategic planning and management of health services organizations, techniques for determining strategies for unique services, integration of strategy, structure, finance and administrative systems.
- HSA6040 Healthcare Leadership 3 credits**
This course provides a comprehensive study of the issues and problems faced by leaders in the rapidly changing health services delivery system. Emphasis will be placed on the natural conflict that occurs between leaders and practitioners and the best practices used to lead in the complex environment of healthcare.
- HSA6050 Health Care Information Systems 3 credits**
This course explores the implementation and management of technology used to improve the delivery of healthcare from a manager's perspective. The use of computer technology in healthcare is far ranging and sophisticated, both administratively and clinically. The legal and ethical issues surrounding biomedical informatics will also be covered.
- HSA6060 Seminar in Health Administration 3 credits**
This capstone course requires students to integrate principles, theories, and methods learned in their graduate courses with the real world of healthcare administration. Conducted as a seminar, students are expected to professionally analyze, synthesize, and evaluate learned knowledge using a series of case studies and real world examples.
- HSA6072 Long Term Care Administration 3 credits**
The growing aging population and its need for a continuum of healthcare services are explored in this course. The continuum includes home health, ambulatory care, extended care, long term care and hospice care. Financing, legal and ethical issues associated with long term care will also be covered.

- HSA6074 Policy and Politics in Healthcare 3 credits**
This course is an analytical overview of the historic and contemporary involvement of government and politics in the development of the US healthcare system. The political dimensions that affect healthcare finance and delivery will also be covered.
- HSA6096 Directed Study in Healthcare Administration 3 credits**
The Directed study is intended to allow the student to pursue a specific topic in healthcare in detail culminating in a significant contextual essay on the topic of study. The study will be conducted under the supervision of a graduate faculty member and may include a practice experience. Prerequisite: Advanced graduate standing and permission of Program Chair.
- HSA6999 MHA Comprehensive Examination 0 credits**
A non-credit requirement to pass the Master of Health Administration Comprehensive Examination after completion of the Health Administration Core courses and as a qualifying condition for graduation. HSA6999 is not a course of study, but is an examination that is listed as a course number to assure documentation of successful completion.

MASTER OF SCIENCE IN MANAGEMENT COURSES

- GEB5226 Research Methods 3 credits**
A study of the philosophy and methodology of conducting graduate research and reporting. Areas of study include primary and secondary data collection, online search methods, and the analysis and compilation of conclusions for decision making. A final research paper will focus on the student's area of concentration. This course must be taken during a student's first or second term.
- MAN5055 Management Processes 3 credits**
A course of study of the origins and current practices of management. The course includes a foundation in decision making, human resources motivation, leadership, global management, planning, organizational structure, group behavior, ethics, and organizational culture.
- MAN5105 Strategic Human Resources Development 3 credits**
This course examines the major functions of human resources development including theory, processes, and skills from a strategic perspective. Also examined are special decision-making challenges faced by contemporary organizations in a rapidly-changing global environment.
- MAN5135 Managerial Finance: Use and Analysis 3 credits**
This course teaches students core financial concepts and tools needed for effective business planning and decision making. Topics are presented from a user perspective and include transaction analysis; cash flow management; financial statement analysis and interpretation; financial ratio analysis; financial forecasting; external sources of capital; and operational, cash, and capital budgeting.
- MAN6200 The Evolution of Organizational Dynamics 3 credits**
This course focuses on how organizations change and evolve. It examines characteristics of more traditional forms of organizations and explores the likely characteristics of organizations of the future: networked, flat, flexible, diverse, and global. Forces that appear to be pushing toward the new model will be examined including techniques for improving organizational effectiveness and member fulfillment by means of planned change.

- MAN6225 Training, Development, and Motivation for Adult Learners 3 credits**
This course focuses on adult learning and motivation for the purpose of creating and facilitating effective and efficient learning experiences for individuals and groups in an organizational environment. Topics include managing the training function, roles and competencies of trainers, assessing training needs, program development, methods of intervention, and evaluation of training. Techniques and theories of training and development of personnel in organizational settings are explored.
- MAN6250 Leaders and Managers in the 21st Century 3 credits**
This course focuses on classical and contemporary leadership concepts and explores new demands and relevant strategies for leaders in the 21st century. Students will examine the decision-making roles of the manager/leader/facilitator in light of personal, organizational, and societal needs judged by standards of effectiveness and ethicalness to determine what leads to outstanding performance as a general manager.
- MAN6290 Managing the Dynamics of Organizational Development and Change 3 credits**
This course provides an overview of how organizations develop over time and explores the issues and techniques involved in analyzing the dynamics of change and growth in organizations as they affect outputs such as quality and profitability. The course draws on knowledge and methods from the behavioral sciences in order to understand organizational performance and effectiveness through planned, systematic, long-range efforts with focus on social change.
- MAN6330 Compensation and Benefits 3 credits**
This course focuses on how organizations use pay and benefit systems as strategic tools for improving motivation and organizational effectiveness. Topics include job evaluation systems, determining competitive compensation levels, non-cash compensation, paying for performance, and administering and applying pay systems. This course also focuses on legally-required employee benefits (social security, and worker and unemployment compensation) and voluntary programs such as healthcare, retirement programs, tuition refunds, stock purchase plans, employee assistance programs, etc. Financial, actuarial, administrative and legal implications of benefit plans are discussed in detail, as is how employees value benefits.
- MAN6340 Situational Practices 3 credits**
This course examines applications of leadership theory, research concepts, and skills in teams and organizations. It provides insights into opportunities and challenges faced by leaders as they seek to adapt themselves and their organizations to the challenging global business environment.
- MAN6350 Labor Relations, Negotiations, and Legal Issues in Human Resources 3 credits**
This course focuses on the interaction of management and labor in an organization and provides a comprehensive analysis of federal, state, and local laws as they affect the human resources function. Emphasis is placed on applying employment laws to develop programs that enable organizations to be proactive in meeting both organizational and work force needs while at the same time, resolving workplace disputes, negotiation, preventing litigation, and implementing and administering human resources policies and practices in compliance with applicable laws.
- MAN6390 Negotiation Agreement and Resolution Conflict 3 credits**
This course examines negotiating techniques and dispute resolution designs including mediation, arbitration, peer review, and other alternatives to litigation in both domestic and international settings.

- MAN6410** **Managing International Cultural Differences** **3 credits**
This course examines cultural similarities and differences on business practices in the U.S. and selected countries and provides methods to build synergistic solutions from those differences. Topics include difficulties organizations encounter in understanding implications of operating in foreign countries; cross-cultural communication, laws, and practices; and/or dealing with employees from various backgrounds.
- MAN6420** **Strategic Recruitment, Selection, and Retention** **3 credits**
This course develops a strategic framework for providing corporations with the human resources needed to achieve corporate goals. Topics include strategies for short- and long-range human resource planning, recruiting and selection, development, motivation, evaluation, remuneration, employee separations, and retention.
- MAN6430** **Developing and Managing Strategy in a Global Environment** **3 credits**
This course surveys modern analytical frameworks for formulating and implementing long-range organizational plans and examines how the various functional areas work together in formulating strategy. Students refine environmental assessment skills, craft strategies, and study global issues to enhance their ability to think strategically and make decisions about how to allocate scarce resources to accomplish goals. Qualitative and quantitative approaches as well as the nature of the decision process are considered.
- MAN6440** **Strategies of Human Resources** **3 credits**
This course covers a more proactive view for integrating strategic organizational planning and human resources issues. This course emphasizes the importance of integrating human resource activities in the context of the organizations' strategic plan and explores decision-making from the perspective of the private or public sector manager who must decide how to allocate scarce resources to accomplish organizational goals and objectives. Qualitative and quantitative approaches are considered.
- MAN6510** **Contingency Planning and Risk Assessment** **3 credits**
This course explores crisis management principles, strategies, tactics, and communication methods in order to predict, manage, and control expected or unexpected contingencies in order to develop expertise in the pivotal role of preparedness in a complex world. Emphasis is placed on the process of developing and implementing a business contingency plan.
- MAN6520** **Business Impact Assessment and Analysis** **3 credits**
This course focuses on anticipating and assessing the effects and implications of any disruption or predictable security threat. The course includes a foundation in analyzing potential and non-financial impacts to organizations due to disruption. Also emphasized are critical analysis, planning skills and tools.
- MAN6530** **Strategy and Planning for Business Continuity** **3 credits**
This course emphasizes response to readiness through the use of control models such as strategic planning and implementation associated with crisis, recovery, and restoration procedures. The process of risk assessment and analysis leading to plan development is examined through the inclusion of issues of chain of command; role delegating; crisis escalation; employee life-safety readiness; evacuation preparedness; and the potential impact of widespread outage which affects telecommunications, emergency systems, transportation, food service facilities, and many other areas.

- MAN6540** **Exercising and Maintaining a Continuity Plan** **3 credits**
This course focuses on the development and testing of a business continuity plan for an organization. Trial runs, tabletops, walk-throughs, and drill tests are discussed and analyzed to understand their value in the process. In addition, the steps to continuity planning maintenance are covered in order to understand how to budget for change and ensure senior management considers its business continuity plan whenever business operations are modified.
- MAN6550** **Contingency Planning and Communication** **3 credits**
This course provides an understanding of how internal and external communication about an organization's business disruption and its effect on stakeholders fits into crisis management and continuity planning. It focuses on how to mobilize organizational resources in a crisis to develop and implement a communication strategy and plan. Topics included are crisis management skills, handling news media and press conferences, common missteps and how to avoid them, obtaining forgiveness when people are hurt, squashing false rumors, and restoring trust and confidence.
- MAN6560** **Management Perspectives in Preserving American Security** **3 credits**
This course presents an overview of the key homeland security issues facing the United States. These include the causes of war, terrorism, the spread of weapons of mass destruction, the challenge from the developing world, the responses to security threats in the wake of 9/11. The roles and regulations of the Department of Homeland Security and other related agencies will be discussed as they relate to awareness, prevention, protection, response, and recovery.

STUDENT SERVICES

The Student Services division offers programs which provide students with lifelong learning opportunities and services that enhance the collegiate experience. From the initial contact in the Office of Admissions to the continuing support network of the Alumni Association, Student Services furnishes encouragement and information to the students of Hodges University.

The offices for Student Services and the University Administration have an "open-door" policy and staff are available to help answer any questions. Appointments are not necessary, but are strongly recommended for student convenience.

THE OFFICE OF THE EXECUTIVE VICE PRESIDENT OF FINANCE & STUDENT SERVICES

The Executive Vice President of Finance and Student Services works to gain and maintain good communications and working relationships among students, faculty, and administrators. Questions or concerns regarding student services or financial affairs should be brought to the attention of the Executive Vice President of Finance and Student Services.

THE OFFICE OF ADMISSIONS

The Vice President of Student Enrollment Management is responsible for enrollment and providing informational support to new HU students. The Vice President is assisted by Admissions Coordinators who have the responsibility of recruiting prospective students. They introduce new enrollments to Hodges University and maintain contact with them throughout the process of admissions.

THE OFFICE OF FINANCIAL AID

Financial Aid is available at Hodges University to help the student meet educational expenses. Financial Aid offices are located on both campuses. Students at the learning sites meet with the Learning Site Coordinator to coordinate the financial aid process and establish the connection with the Financial Aid offices. The office administers and coordinates the financial aid program for students and provides financial aid counseling. Most forms of financial aid are based upon student financial need, University costs, and the availability of funds. The Vice President of Student Financial Assistance and the Financial Aid Officers guide each student candidate through the application process and assist in the completion of the necessary forms.

STUDENT DEVELOPMENT

Student Development is the branch of Student Services that sponsors programs and services in assisting students in adjusting to college, enhancing student life, and representing student concerns. More specifically, the services include orientation, student activities, student organizations, counseling, career guidance, placement assistance, scholarships, and enforcement of University regulations.

Student Development services offer opportunities for personal development within the offices of the Vice President of Student Development/Dean of Students, Counseling, and Career Development. The Vice President of Student Development/Dean of Students has administrative oversight of these three services. The Director of Counseling is the supervisor of the Career Development Offices in addition to serving as the University counselor.

THE OFFICES OF THE VICE PRESIDENT OF STUDENT DEVELOPMENT/DEAN OF STUDENTS AND THE ASSISTANT DEAN OF STUDENTS

The Vice President of Student Development/Dean of Students has administrative responsibility for the supervision of the Student Development programs and services concerning the enrichment of the collegiate experience at Hodges University. Such services include the presentation of programs and activities that focus on the cultural, social, academic, and intellectual aspects of the University.

The Vice President of Student Development/Dean of Students coordinates the Student Development offices with assistance of the Assistant Dean of Students. The Assistant Dean of Students supervises student activities, working in cooperation with the faculty and staff members as administrative advisors to the various clubs, organizations, and publications. The Vice President of Student Development/Dean of Students and the Assistant Dean of Students spend time at both campuses and learning sites to serve the student body. Appointments are not necessary, but can be helpful. The toll-free telephone numbers listed in the Bulletin and email are available for easy connection with the Vice President of Student Development/Dean of Students or the Assistant Dean of Students for all students at the campuses, learning sites or online.

THE OFFICE OF COUNSELING

The Director of Counseling provides counseling services to address the variety of concerns of the Hodges University student. Students may receive assistance with problems that interfere with academic progress such as daily living, adjustment to college life, time management, or relationship issues through individual or group counseling.

- Counseling services include but are not limited to:
- Individual and confidential counseling for students who can benefit from short term problem solving;
- Referral resources available in the community and through private and public service agencies;
- Crisis intervention;
- Drug education and referral services, and
- Educational seminars and workshops.

The Counseling services are available to all matriculated Hodges University students. There are Counseling offices at the Naples and Fort Myers campuses with an open door policy; however, it is best to schedule an appointment with the Director of Counseling. The Director of Counseling may be contacted directly by the students. Students are encouraged to leave a voice message for the Counselor. Students may use the toll-free telephone numbers for access.

DISABILITY SUPPORT SERVICES

Recognizing its commitment to providing equal access and equal opportunity, the University provides disability support services which assist individuals with special needs in accessing and making use of campus services and facilities. Disabled students are encouraged to contact the ADA Coordinator to make arrangements for any needed assistance, to receive an orientation to the campus, and to discuss the support they will need to complete their academic program. The Office of Counseling also helps individuals to integrate into the campus community. Anyone requiring special accommodations in order to participate in campus events should contact the ADA Coordinator four weeks prior to scheduled activities.

THE OFFICE OF CAREER DEVELOPMENT

The Office of Career Development provides a wide range of services to students and graduates. The staff offers both one-on-one and group advisement on topics such as career decision-making, career assessment, resume and cover letter preparation, interviewing skills and techniques, and job search strategies. Job placement assistance is also available in that the office maintains information on current full-time and part-time employment opportunities and serves as a resource for both employers and job seekers. Outreach services include participation in local career fairs, presentations in classes, and meetings with prospective employers. Office hours of staff are posted at each campus.

While students are seen on a walk-in basis, appointments are strongly encouraged. Services provided by the Office of Career Development are available at no cost to all registered students and graduates. Students with a criminal record may not be eligible to apply for certain jobs such as criminal justice positions or positions in the medical field. The University will not provide placement assistance for students convicted of a felony.

PROGRAMS AND SERVICES

Orientation

Prior to attending classes, new students, as well as those returning to the University after one year or more of nonattendance, are required to participate in an orientation program. This program is designed to acquaint students with the policies of the University and includes instructional sessions required to participate in graduate courses.

Publications

All official publications of Hodges University are available for student input; the University reserves the right to edit and publish only information consistent with the mission and standards of the institution. Students should submit ideas, articles, and news to the administrator responsible for the respective publication. Any other publications or papers should be submitted to the Vice President of Student Development/Dean of Students or the Assistant Dean of Students for approval prior to campus distribution.

Student Activities

The Vice President of Student Development/Dean of Students and the Assistant Dean of Students are responsible for student activities, organizations, and services, and administer all extracurricular activities. All student social events and organized extracurricular activities are designed to encompass student interests and to enhance the philosophy and objectives of Hodges University. Events must be sponsored by recognized student organizations with approval and support of the appropriate faculty advisor and the Dean of Students. All fund-raisers and sales by vendors must be authorized by the Vice President of Student Development/Dean of Students. University guidelines for registering, scheduling, advertising, and conducting all such activities and events are to be followed.

The University reserves the right to cancel an activity or event when there are reasonable grounds to believe that the activity or event will be detrimental to University operation or will endanger persons or property.

Activities are usually subsidized by the University through the Vice President of Student Development's budget; therefore, most activities are free or inexpensive. Activities are publicized by articles in the student newsletter, *The PANTHER PRESS*, the student services newsletter, *The Messenger*, or by flyers posted on the many bulletin boards around the campuses.

STUDENT CLUBS AND ORGANIZATIONS

Belonging to an organization or club introduces the Hodges University student to new friends and enriches the university experience. Extracurricular activities foster leadership development, improve people skills, and encourage involvement-characteristics employers look for and qualities that last a lifetime! The student activities programs exist for the enjoyment and benefit of all students.

The Alumni Association

Membership in the Alumni Association is open to all graduates of Hodges University. The Alumni Association serves the needs of the graduates by providing contact with friends and connections made at the University. The Alumni Association helps pool resources, broadens the professional network and supports currently enrolled students, in addition to supporting the University.

The Entrepreneurial Club

The Entrepreneurial Club's purpose is to gather for the exchange of ideas beneficial to promoting business growth. The Entrepreneurial Club meets each term by announcement.

The Hodges University Ambassadors

The HU Ambassadors organization is open to the entire student body, and its purpose is to foster fellowship among students, develop leadership skills, participate in community service, and to represent the student body. The HU Ambassadors also assist Student Development in organizing and sponsoring social activities and programs for students and their families. Students should contact the Assistant Dean of Students for details.

The Multicultural Committee

The Multicultural Committee is designed to cultivate appreciation and respect for personal and cultural differences among all members of the University community. Open to all students, its purpose is to enhance multicultural recognition and to provide activities that will ensure a positive vision for the future through education, recognition, support of student organizations, and celebration of diversity. Students interested in participating with the Multicultural Committee are asked to contact the Director of Counseling.

The HU Sports Club

The HU Sports Club is a student organization open to all alumni, students, staff, faculty, and persons affiliated with Hodges University who enjoy participating in various sporting events. The goal of the HU Sports Club is to provide opportunities for better health through sporting activities, to inspire communication between individuals in the University community, and to increase awareness of athletic abilities and potential.

Policy for Forming Clubs

Students enrolled at the University are free to organize and are encouraged to join associations which promote their common interests, so long as the following guidelines apply:

1. The purposes, principles, and policies of the organization are to be consistent with the general philosophies and principles of Hodges University.
2. Membership in the organization is open to all currently enrolled University students in good standing without regard to age, color, gender, sexual orientation, religion, creed, national origin, political opinions or affiliations, disabled veteran status, disability, or age as provided by law and in accordance with the University's respect for personal dignity. The exception is for those particular groups which are selective on the basis of scholarship, such as an honorary society.
3. Statements of the purpose, criteria for membership, rules or procedures, and a current list of officers are to be filed with the Assistant Dean of Students.
4. The policies and actions of the organization are determined only by those individuals who hold bona fide membership in the organization.
5. A faculty sponsor has been appointed by proper authority (the Vice President of Student Development/Dean of Students or University Administration).
6. The President of the University has approved the written request of the association for recognition.
7. The organization is in compliance with the general and specific policies enumerated herein.

Club Conduct and Responsibilities

Activities must conform with the stated purpose of the club or organization, may not cause a disturbance, and may not interfere with the regular operation of the University. Club meetings may not be held during class instruction hours. The President of the University reserves the right to disband any student club or organization that violates the rules and regulations of the University as set forth in official publications.

Anti-Hazing Statement

Hodges University does not allow any student, faculty, staff, or alumni to engage in any activity that may be construed as hazing on or off campus. Hazing is any action taken or situation created that produces mental, emotional, or physical discomfort, embarrassment, harassment or ridicule. Such activities and situations include, but

are not limited to, paddling in any form, creation of excessive fatigue, physical and psychological shocks, treasure hunts, scavenger hunts, road trips, wearing apparel that is conspicuous and not normally in good taste, engaging in public stunts, morally degrading or humiliating games and activities that can call undue attention to a difference in status between initiated and non-initiated members (running errands, carrying food or trays, etc.), and late work sessions which interfere with scholastic activities, regulations, and policies of Hodges University.

Violations by individuals or student groups constitute grounds for disciplinary action. The policy on hazing applies to all campus organizations.

Eligibility and Officers

A student must maintain a 3.0 cumulative grade point average to be considered in "good standing" or eligible to participate in the clubs and organizations, or to serve as an officer of a student organization.

Active - Inactive Status

The clubs and organizations of Hodges University are reliant upon the participation of the students. At times a club or organization may become inactive due to lack of student involvement or support. In order for a club to receive financial support through Student Development, the rules for club formation should be in place and the club should demonstrate active status through documented student membership and activity.

Web Site Policy for Organizations

All information for the University website relating to clubs and organizations must be approved prior to inclusion on the University website. Student leaders should submit information to the appropriate faculty advisor for consideration, and the faculty advisors will then contact the Vice President of Student Development/Dean of Students. The information is then forward by the Dean to the Vice President of Information Technology to post to the web. The Vice President of Information Technology will only upload information relating to clubs and organizations as submitted by the Assistant Dean of Students or the Dean of Students.

Fund-Raisers

All fund-raising projects for activities and organizations must have prior approval by, and be coordinated with, the Office of Student Development. In addition, these must be services or product-oriented. Clubs and organizations are not permitted to solicit off-campus funding without prior approval.

Social Event Areas

In regard to facility use, social events in all areas, on campus or at a host site, must receive approval from the Executive Vice President of Finance and Student Services. Social events with alcohol will be allowed in appropriately enclosed areas with permission from the Executive Vice President of Finance and Student Services.

STUDENT RIGHTS AND RESPONSIBILITIES

Acceptance to the University and matriculation entitles each student to the rights and privileges of membership in the Hodges University community. As in other communities, students must assume the responsibilities and obligations accompanying these privileges. The responsibility for maintaining appropriate standards of conduct and observing all University regulations and policies rests solely with the student.

Each student is held responsible for behaving in a manner consistent with the best interest of the University and of the student body. In order to protect the rights and privileges of all students, there are student behavior standards which are intended to facilitate the desired environment and educational goals of the University and its students. It is important that each student become familiar with the responsibilities and the rights afforded students by the University. The University reserves the right to suspend or dismiss from the University any student at any time for misconduct or when such action is deemed to be in the best interest of the student or the student body of the University.

THE STUDENT ROLE IN INSTITUTIONAL DECISION MAKING

Hodges University is aware that our greatest resource is our students, and the Administration is committed to attending to the student welfare. Institutional decision making involves an appreciation of the total academic community. The student plays an important role in decision making through participation in the clubs and organizations. As deemed appropriate by the University administration, students may be invited to join institutional committees. Each student is encouraged to bring concerns, issues, and ideas to the attention of the Administration through the Vice President of Student Development /Dean of Students.

Students Suggestions and Complaints

An institutional suggestion or complaint form is located in the lobbies and bookstores of the University. Students may complete the form which will be forwarded to the Assistant to the President who in turn will direct the suggestion or complaint to the appropriate Administrator for review. The forms must be signed with a legible signature for a response. Hodges University will give appropriate consideration to all suggestions; however, any compliance with suggestions or complaints is not guaranteed. The Library has a suggestion box for comments relative to the library.

STUDENT BEHAVIOR STANDARDS

Hodges University has established the following behavior standards to develop student awareness and responsibility to the University community and the institution. Behavior, for which a student is subject to discipline, or dismissal from a class, an internship, or the University, falls into these categories:

1. Any act of dishonesty toward the University, including (but not limited to) cheating, plagiarism, misuse of University documents or records, forging or knowingly furnishing false information to the University.
2. Obstruction of or disruption to, including (but not limited to) teaching, research, administration, disciplinary procedures, or any scheduled University activity.
3. Damage to or theft of University property, or property of a member of the University community while located on University property.
4. Unauthorized entry or access to University equipment, facilities, supplies, or records.
5. Abuse of any person on University property or conduct which endangers the health of any person.
6. Unlawful possession, use or distribution of any controlled substance as defined by law on University property.
7. Disorderly, lewd, indecent or obscene conduct on University property or at University events.
8. Failure or refusal to comply with lawful directions of University officials acting in the performance of their duties.
9. Failure or refusal to comply with the internship policies and procedures established for each program. If a student's behavior results in an internship being terminated, the student will not be assigned to another internship, which may result in the student not being able to graduate.
10. Failure or refusal to comply with the University policy that no person will be permitted on campus while intoxicated and no consumption of alcoholic beverages will be permitted during classes.
11. Violation of any University policy or regulation.

STUDENT DISCIPLINARY PROCEDURES

Students in violation of the Student Behavior Standards are subject to disciplinary action. An interim administrative suspension may be imposed without a hearing pending final disposition of a disciplinary action for such violations. A formal suspension, probation, or dismissal may be imposed after formal proceedings as follows:

1. The student has been served written notice of the violation. Service may be in person or by sending the notice U.S. regular mail to the address provided on the last registration form signed by the student.
2. The student, upon the student's request, is provided inspection and/or review of the evidence of the violation.

3. The evidence of the violation is reviewed by the disciplinary hearing officer.
4. Within seven (7) days of the notice of violation, a student may request a hearing before the Hearing Officer. A hearing shall be held within seven (7) days of the request, in which the evidence of the violation is presented, and the student is afforded an opportunity to examine the evidence of the violation and present any defense or extenuating or mitigating circumstances.
5. A written finding is provided to the student, the President, and Executive Vice Presidents within seven days of the hearing. The written finding will contain a summary of the facts upon which the disciplinary decision is made and the terms and conditions of the disciplinary action.

A suspension or probation will state the duration and terms of the suspension or probation, and conditions of termination of the suspension or probation. A dismissal is final and prohibits re-entry into the University.

The disciplinary hearing officer will be either the Vice President of Student Development /Dean of Students or an ad hoc committee appointed by the Vice President of Student Development /Dean of Students. The composition of a disciplinary committee will be in the sole discretion of the Vice President of Student Development /Dean of Students.

A student may appeal the decision of the Disciplinary Hearing Officer or the Disciplinary Committee, if one is used, to the President of the University. The President will have final authority over the matter.

GRIEVANCE POLICY

PURPOSE

The primary objective of a student grievance procedure is to ensure that concerns are promptly dealt with and resolution reached in a fair manner. It is essential that each student be given adequate opportunity to bring complaints and problems to the attention of the University administration with the assurance that each will be given fair treatment. The student grievance procedures of Hodges University are designed to provide effective means for resolving legitimate issues that are subject to the grievance process.

GRIEVANCE DEFINITION

A grievance is defined as dissatisfaction occurring when a student feels or thinks that any condition affecting him/her is unfair, or creates unnecessary hardship. Grade disputes are not included in the grievance process. Grade disputes are addressed by the Office of Academic Affairs.

THE INFORMAL GRIEVANCE PROCEDURE

The initial phase of the student grievance procedure is oral discussion between the student and the University instructor, administrator, or staff member alleged to have caused the grievance in order to communicate and resolve the problem. The meeting should be held as soon as the student first becomes aware of the problem. If the student has good cause not to meet with the person(s) alleged to have caused the grievance, or considers the response to the grievance to be unsatisfactory causing the grievance to still exist, then the student should consult with the person's supervisor to attempt to resolve the problem. Should the matter remain unresolved to the satisfaction of the student, then the student may file a formal grievance.

THE FORMAL GRIEVANCE PROCEDURE

To file a formal grievance, the student should obtain a Grievance Form from the office of Student Development and file it with the Vice President of Student Development/Dean of Students.

The Vice President of Student Development/Dean of Students will serve a copy of the Grievance Form to any and all parties which the student has included in the grievance and the Hearing Officer.

The Hearing Officer will be the Executive Vice President of Academic Affairs for all academic grievances, or the Executive Vice President of Finance and Student Services for non-academic grievances. The Hearing Officer may ask the Vice President of Student Development/Dean of Students to appoint an Ad hoc Committee to serve as the designee.

Hearings may not be tape recorded. If a student wants a permanent record of the hearing, he/she may provide a court reporter at the student's expense. Hearings may not be attended by outside agencies or attorneys, as these are informal and internal proceedings.

Within seven days of service of the grievance the accused parties will submit in writing their explanation, if any, to the Hearing Officer.

Upon request, the parties will submit for inspection and/or review any evidence relevant to the grievance which the parties have knowledge of to any other party to the action.

Within 14 days of the filing of the Formal Grievance the Hearing Officer will have a preliminary hearing to determine if there is probable cause to proceed with the grievance and attempt to resolve the matter.

If the Hearing Officer determines that there is not probable cause to support the grievance then the Hearing Officer will dismiss the grievance in writing stating the reasons for that finding. Such decision may be appealed to the President who will have final authority on that issue. If the Hearing Officer finds there is probable cause to support the grievance and the matter remains unresolved then the matter will proceed to the Grievance Committee, which is ad hoc.

If the matter is Academic in nature, the Committee will consist of three Faculty Members, one Student, and a Chair selected from the Administration of the University. The Chair will have a vote. The minimal participation in a Grievance Committee meeting is one Faculty, one Student, and the Chair.

If the matter is non-academic in nature, the Committee will consist of three Administrators, one Student, and a Chair selected from the Faculty. The Chair will have a vote. The minimum participation in a Grievance Committee meeting will be one Administrator, one Student, and the Chair.

Within 14 days the Grievance Committee will convene a hearing to determine the resolution of the grievance.

STUDENT GRIEVANCE COMMITTEE PROCEDURE

The Grievance Committee will hear the matter and resolve the dispute subject to the following:

1. The Student will present all relevant evidence to the Committee, subject to examination by the other parties and/or the Committee.
2. The other parties will present all relevant evidence to the Committee, subject to examination by the Student and/or the Committee.
3. Other persons may be allowed to present evidence in the sole discretion of the Committee Chair.
4. The Committee will make a written finding within seven days of the hearing which will contain the decision of the Committee and findings of fact that support the decision. This written finding will be filed with the Vice President of Student Development/Dean of Students. The Vice President of Student Development/Dean of Students will serve a copy on all parties, the Executive Vice Presidents, and the President.

APPEALS

Either party may appeal the decision, within seven days after the written decision of the Grievance Committee, to the President who will have the final authority over the matter. The President normally will only consider the written record of evidence, including the complaint, student file, responses, minutes of meetings, and written reason for appeal, in order to render a decision in the matter.

In the event that any party fails to appeal, the decision regarding probable cause or fails to appeal the written decision of the Grievance Committee or Hearing Officer within seven (7) working days, then the grievance shall automatically be dismissed without further recourse or review.

HEALTH, SAFETY, AND SECURITY POLICIES AND PROCEDURES

The policy of Hodges University is to provide its students, faculty, staff, and guests, a secure, safe and healthy environment in order to enhance the delivery of educational services and otherwise comply with the letter and spirit of its Mission Statement.

SAFETY ISSUES

Good judgment and common sense are the basis of the safety and security policies of Hodges University. It is the duty of each student to follow the safety and security practices as outlined and to report to the attention of the administration any breaches of safety or security issues.

AN ACCIDENT ON CAMPUS

Any student who sustains an accident on campus should immediately notify a faculty member, Dean or Program Chair, member of the Administration, or other employee of the institution. The student will be given an accident report form which must be filed with one of the Safety Officers at the institution. The Safety Officers are Executive Vice President of Academic Affairs and the Executive Vice President of Finance and Student Services. The report must be filed within forty eight (48) hours after the occurrence being reported.

AIDS POLICY AND INFORMATION

Hodges University is committed to non-discrimination, fairness and concern for the health and well-being of all in our community. Educational programs are offered each year throughout the community and printed material on AIDS and related information can be obtained in the Library.

The AIDS hotlines for Southwest Florida are as follows:

National HIV/AIDS/STD Hotline 1-800-342-AIDS

State of Florida AIDS Hotline 1-800-352-2437 (1-800-FLA-AIDS)

SMOKING POLICY

The University discourages smoking as both a health risk and a fire hazard, and recognizes the health hazards to others of second-hand smoke. Smoking is not allowed in the University buildings. Smoking is only permitted outdoors in designated areas and students who smoke are expected to exercise good judgment and consideration for others.

DRUG AND ALCOHOL POLICIES

Hodges University recognizes that adults will make their own decisions regarding their personal use of alcohol and other drugs. Hodges University also recognizes that alcohol and other drug abuse by members of the academic community jeopardize the safety of the individual and is an impediment to the learning process. Therefore, Hodges

University is committed to having a campus that is free of the illegal or abusive use of drugs and alcohol. This policy is set forth to meet the University's responsibilities as stated in the Drug-Free Schools and Communities Act Amendments of 1989, Public Law 101-226.

University Policy and Federal/State Law Concerning Alcohol and Drugs

Federal and State laws concerning alcohol and drugs are outlined in the *Substance Abuse Awareness Guide*, distributed through the Office of Student Development as part of the Orientation. The consumption or possession of alcoholic liquor, beer or wine is allowed by students 21 years old or older in designated areas on University property, or on host property, in accordance with the Social Policy. The consumption or possession of alcoholic liquor, beer or wine by students on Hodges University property other than as provided above is prohibited.

Health Risks and Legal Sanctions

Health risks, legal sanctions for southwest Florida, and Federal Trafficking Penalties are detailed in the *Substance Abuse Awareness Guide*.

Counseling and Treatment for Alcohol and Drug Abuse

The *Substance Abuse Awareness Guide* lists referral sources for the community, as well as national hotline numbers. The Director of Counseling is available for consultation and will aid students in other references. The University holds seminars throughout the academic year to increase awareness of the problems associated with substance abuse.

FIREARMS AND WEAPONS - POSSESSION AND USE POLICY

The possession of weapons by any student is not permitted on campus or during any event sponsored by the University, whether the person has a permit from an appropriate authority or not. Any person carrying a weapon on campus or at a University event will be deemed to have committed a serious breach of security. Breach of security is the engagement in conduct which is in violation of any of the policies set forth in the manuals of the institution.

Law enforcement officers who attend Hodges University while on duty are required by law to be armed. They must have their weapons strapped on and buckled down, and they must have their identification badges visible. The law enforcement officers, whether in street clothes or in uniform, will adhere to this policy. Officers who are not on duty should not have their weapons in the classrooms.

With all consideration for student safety, the exception of the firearms and weapons policy for the on-duty law enforcement officers is considered appropriate by the institution.

FIRE DRILL OR FIRE ALARMS

In the event that a fire alarm does sound during any class period, the faculty member will immediately and calmly lead his or her students to the nearest exit from the building as depicted on the emergency plan posted throughout the building. When you hear the fire alarm:

- * Quickly but calmly follow your instructor to the nearest exit.
- * Use the stairs to evacuate.
- * Close the doors as you exit to slow the spread of fire.

Setting a fire or attempting to do so, setting off a false alarm or discharging or misusing fire fighting or safety equipment endangers the safety of others and cannot be tolerated. The unauthorized use of fire fighting or safety equipment will result in severe disciplinary action. Behavior that results in an endangerment to the safety of others will result in swift and severe action.

THEFT AND LIABILITY

The University is not responsible for the loss or theft of or damage to the personal property of students. If something is stolen at Hodges University, please report this occurrence immediately to the campus director.

CELLULAR PHONE POLICY

Hodges University recognizes the growing trend regarding student possession of cellular phones with video, camera, or voice recording capabilities. In support of each individual's reasonable expectation of privacy and the copyright and intellectual property laws, the use of these cellular phone features by Hodges University students must be in conjunction with express consent. Students are expressly forbidden to video, use camera or voice recordings without the express consent of the subject(s) being photographed or recorded. Any student whose use of his/her cellular phone violates another's reasonable expectation of privacy or produces any media as a result of the cellular phone capabilities without express consent may be found in violation of this policy. Violations of this policy may lead to disciplinary action that may result in confiscation of the cellular phone and referral to the Vice President of Student Development/Dean of Students as a violation of the Student Behavior Standards.

Cellular phones should be placed on vibrate while at the University. Professors will explain to the classes or include their cell policies on syllabi. Students must abide by the requirements of the professors or administration. Text messaging may be a less disturbing communication tool in the professional environment. Disturbances in the classrooms due to cell phones hinder learning, and students should be considerate of their fellow classmates.
