

Annual Clery Act and Violence against Women Reauthorization Act
Report for 2018

In accordance with the Violence against Women Reauthorization Act of 2013, Hodges University is required to publish and disseminate an annual campus security report to all staff, faculty and students. The security report includes the three previous years of criminal statistics of specific crimes as defined by the Department of Education. Furthermore, the security reports contain the Hodges University Clery Act and Violence against Women Reauthorization Act policy. Key elements of this policy include the Clery Act reportable offense, alert warning procedures, procedures for reporting Clery Act offenses, Clery Act Subcommittee roles and responsibilities and procedures for investigating and adjudicating Clery Act offenses.

A safe and secure campus environment is an essential part in fulfilling a university's educational mission and in assisting students to achieve their educational goals. That's why the top priority at Hodges University is the physical safety and well-being of our students, faculty, staff and visitors. This report represents an important part of our commitment to safety and the safety and security policies that support our goal of making our campus a safe place to work and learn.

We believe that campus safety is a responsibility shared by all members of the campus community, including faculty, staff and students. Please review our policies on this important subject. If you have any questions, please contact our Director of Facilities and Campus Safety at (239) 589-6209.

Thank you.

John D. Meyer, DBA,
President

ANNUAL REPORT OF CRIME STATISTICS
